When somebody should go to the ebook stores, search start by shop, shelf by shelf, it is in point of fact problematic. This is why we allow the books compilations in this website. It will also see guide [Busy People Astronaut](#) you such as.

By searching the title, publisher, or authors of guide you in point of fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best area with connections. If you set sights on to download and install the [Busy People Astronaut](#), it is extremely easy then, past currently we extend the link to purchase and create bargains to download [Busy People Astronaut](#) suitably simple!

[Busy People: Firefighter](#) [Jul 14 2021](#) What's it like being a firefighter? Let's find out! Step inside the life of Frank the firefighter and discover the challenges he faces in his very busy job. Follow his crew from the moment the fire station alarm bell rings to his arrival at the emergency and learn about the inspirational life of a firefighter. An entertaining story following a day in the life of a firefighter for children aged 4+, with fun illustrations to engage and inspire young readers. Turn to the back of the book for more information about what a firefighter's job involves, the equipment they need, and the other busy people that work alongside them. The Next Steps include discussion points about the story to prompt further conversation, develop vocabulary, and support comprehension. People who help us, people who care, busy people are everywhere! Encourage the next generation of busy people and learn about a range of careers in this inspiring series for young children. Each story focuses on a different professional as they go about their daily work, exploring what each job involves, why it's important, and how it can be rewarding. If you enjoyed this book, check out the other titles in the Busy People series: [Busy People: Astronaut](#) [Busy People: Builder](#) [Busy People: Construction Worker](#) [Busy People: Doctor](#) [Busy People: Firefighter](#) [Busy People: Librarian](#) [Busy People: Police Officer](#) [Busy People: Teacher](#) [Busy People: Vet](#)

[Astronaut](#) [Aug 27 2022](#) Follow Jenny the astronaut as she and her colleague Lei launch into space! What problems will they encounter? Discover the array of problems an astrophysicist encounters as Jenny attempts to fix the broken space station. Step inside the lives of Busy People! Each story focuses on a different character as they go about their daily work. But each day holds a new challenge... Next Steps are included at the back of the book to prompt further discussion and develop vocabulary. More information is provided about the Busy People and the type of equipment they use as well as the characters that work alongside them.

[Cutting-Edge Astronaut Training](#) [Feb 21 2022](#) Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! How do astronauts prepare for their missions in space? What recent discoveries and innovations have changed how astronauts train? With a focus on STEM, fascinating sidebars, and up-to-date facts, this book delves into the world of astronaut training.

[If I Were an Astronaut](#) [Dec 19 2021](#) Describes the kinds of things that astronauts do, such as flying spacecraft and sleeping stuck to the wall, and discusses the education and training needed to become an astronaut.

[Mousetronaut](#) [Jun 13 2021](#) A #1 New York Times bestseller "This little mouse may well inspire some big dreams." —Kirkus Reviews "In this picture book based on the space shuttle Endeavour, one of the smallest mice, but the most hardworking...the values of being small, useful, solving problems, and working hard—as opposed to being big and strong—will inspire young readers." [Journal](#) "Inspired by this real-life mouse, Kelly's first children's book tells the story of Meteor, a lightly anthropomorphized rodent who turns his tininess into an advantage when an important mission is at stake. Stuck in a crack between two monitors...textured images and vivid portraits that make it absolutely clear that space travel is a larger-than-life adventure." —Publishers Weekly A heartwarming tale of the power of the small, from bestselling author and retired NASA astronaut Commander Mark Kelly. Astronaut Mark Kelly flew with "mice-tronauts" on his first spaceflight aboard the shuttle Endeavour in 2001. Mousetronaut tells the story of a small mouse that wants nothing more than to travel to outer space. The little mouse works as hard as the bigger mice to show readiness... and is chosen for the flight! While in space, the astronauts are busy with their mission when disaster strikes—and only the smallest member of the crew can save the day. With lively illustrations by award-winning artist C. F. Payne, Mousetronaut is a charming tale of perseverance, courage, and the importance of the small!

[People Up Close](#) [Nov 18 2021](#) In [People Up Close](#), young readers examine portions of several tools-of-the-trade and identify both the tool and the worker who uses it. Reader learn why a firefighter has a fire helmet, how a space suit protects an astronaut, what a microscope reveals to a scientist, and how a mixer helps a baker prepare ingredients.

[Busy People: Librarian](#) [Jun 25 2022](#) Each story in the Busy People series focuses on a different character as they go about their work, facing the challenges that each day brings. Rita the librarian surprises in store for the children who join in her library's fifth birthday celebrations.

[Me and My Place in Space](#) [Aug 03 2020](#) Where am I in the solar system? A beloved bestseller, now refreshed with new art from Christine Gore, that will help children discover their place in the universe. Way. Where is the earth? Where is the sun? Where are the stars? Now with new art by Christine Gore, here is an out-of-this world introduction to the universe for children. With Earth as a starting point, a young astronaut leads readers on a tour past each planet and on to the stars, answering simple questions about our solar system. In clear language, drawings, and diagrams, space unfolds through the child's eyes. Colorful illustrations, filled with fun detail, give children a lot to look for on every page, and a glossary helps reinforce new words and concepts. A terrific teaching tool, [Me and My Place in Space](#) is an easy and enjoyable way to introduce the concept of space to budding astronomers.

[Vet](#) [Aug 15 2021](#) What's it like being a vet? Let's find out! Step inside the life of Mike the vet and discover the challenges he faces in his very busy job. From helping a ewe deliver her lamb to helping a dog that needs help, learn about the inspirational life of a vet. An entertaining story following a day in the life of a vet for children aged 4+, with fun illustrations to engage and inspire young readers. Turn to the back of the book for more information about what a vet's job involves, the equipment they need, and the other busy people that work alongside them. The Next Steps include discussion points about the story to prompt further conversation, develop vocabulary, and support comprehension. People who help us, people who care, busy people are everywhere! Encourage the next generation of busy people and learn about a range of careers in this inspiring series for young children. Each story focuses on a different professional as they go about their daily work, exploring what each job involves, why it's important, and how it can be rewarding. If you enjoyed this book, check out the other titles in the Busy People series: [Busy People: Astronaut](#) [Busy People: Builder](#) [Busy People: Construction Worker](#) [Busy People: Doctor](#) [Busy People: Firefighter](#) [Busy People: Librarian](#) [Busy People: Police Officer](#) [Busy People: Teacher](#) [Busy People: Vet](#)

[God is an Astronaut](#) [Apr 23 2022](#) As though a gesture could save anyone - in this universe where even the smallest pieces are hurtling away from one another at the speed of light. That's what you can say right now. What say you? Jess Frobisher is a botany professor at the local university. Her husband, Liam, works for a space tourism company called Spaceco, which has just become the most talked-about news: one of their shuttles exploded shortly after lift-off, killing everyone on board. The press descends. With the future of the company in doubt, two filmmakers approach Liam about making a documentary on the space tourism industry. Seeing this as an opportunity to save Spaceco, Liam agrees to cooperate, assembling a team for another trip into space. When he asks Jess to accompany him, she decides to decide how far she's willing to go to save her faltering marriage and her life as she knows it.

[Ellen Ochoa](#) [Dec 07 2020](#) "Explores the life of Ellen Ochoa, including her childhood in California, her rise through the ranks in NASA, several space shuttle missions, and becoming the first Latin American woman in space"--Provided by publisher.

[Astronaut Academy: Zero Gravity](#) [Oct 27 2019](#) Beautifully updated with fresh color, this new edition [Astronaut Academy: Zero Gravity](#) is the first volume of the middle-grade graphic novel series by Dave Roman. Hakata Soy's past won't stay in the past! This former space hero is doing his best to keep his head down at Astronaut Academy. Things aren't going so great, though. The mission in school has it in for him. His best friend won't return his calls. And his new roommate is a complete jock who only cares about Fireball. Hakata just wants to make a fresh start. But how? He has to time to study Anti-Gravity Gymnastics and Tactical Randomness when he's got a robot doppelganger on its way to kill him?

[Astronaut](#) [Sep 28 2022](#) Experience a day in the life of an astronaut! Each story focuses on a different character as they go about their daily work. But each day holds a new challenge for the character... Next Steps are included at the back of the book to prompt further discussion and develop vocabulary as well as information about the characters who work alongside the protagonist. [The Life Cycle of a Honeybee](#) [Aug 23 2019](#) Describes the physical characteristics, behavior, life cycle, and natural environment of honeybees.

[To the Stars](#) [Feb 09 2021](#) Kathy Sullivan wanted to go everywhere. She loved blueprints and maps. She loved languages and the ocean. She didn't like the question, "What do you want to be when you grow up?" She wanted to explore and do exciting things that girls weren't supposed to be able to do. Only men had the exciting jobs. Kathy liked fishing and swimming; flying planes and sailing. That's what she liked and that's what she decided to do with her life. She followed her heart and eventually became a NASA astronaut and the first woman to walk in space. Kathy wanted to explore the world and so she did: from space! [Backmatter](#) includes further information about Dr. Sullivan and her career, as well as other famous firsts made by women astronauts.

[Police Officer](#) [Oct 17 2021](#) What's it really like to be an police officer? Find out in this delightful picture book and discover the everyday and extraordinary events of life on a police station. Includes a fascinating first guide to a most exciting and unusual profession.

[Pink Bunny](#) [Sep 16 2021](#) From the I Love Reading series a new range of first readers based on phonics. Ideal for those who prefer levelled content to help children progress toward independent reading. There are 7 levels within the I Love Reading series, each level has 8 books each with imaginative writing and delightful artwork This fantastic new fiction reading series for children aged 5-7 features a structured phonic progression with great artwork and fun stories. Phonics enables new readers to recognize the individual sounds of English and to blend them, building confidence to tackle words without relying on memory and guesswork. Developed under the guidance of an expert consultant, I Love Reading Phonics matches the phonics that children are being taught in school. This is level 2 in this series.

[Busy Day: Vet](#) [May 24 2022](#) Help the busy vet as she listens to buster's heart, gives Carla her medicine and X-rays Bella's leg. With interactive action-flaps, you can do it too!

[What Do Scientists Do All Day?](#) [Apr 20 2019](#) What do scientists do all day? Find out in this fully illustrated book that features more than 100 types of scientist.

[Busy People: Astronaut](#) [Jul 26 2022](#) Follow Jenny the astronaut as she and her colleague Lei launch into space! What problems will they encounter? Discover the array of problems an astrophysicist encounters as Jenny attempts to fix the broken space station. Step inside the lives of Busy People! Each story focuses on a different character as they go about their daily work. But each day holds a new challenge... Next Steps are included at the back of the book to prompt further discussion and develop vocabulary. More information is provided about the Busy People and the type of equipment they use as well as the characters that work alongside them.

[Busy People: Police Officer](#) [Sep 23 2019](#) Welcome to the everyday life of PC Seth! Discover the challenges that each day brings as a police officer. Find out what difficulties PC Seth faces with

festival and how he attempts to reunite a lost boy with his parents. Step inside the lives of Busy People! Each story focuses on a different character as they go about their daily work. But new challenge... Next Steps are included at the back of the book to prompt further discussion and develop vocabulary. More information is provided about the Busy People and the type of need as well as the characters that work alongside them.

**First MarFeb 27 2020** An authorized portrait of the first astronaut to set foot on the moon sheds light on other aspects of his career, from the honors he received as a naval aviator to family paid for his professional dedication.

**VetSep 04 2020** Discover what a teacher, a doctor, a firefighter and a vet do and how they help the community. Each story focuses on a different character as they go about their daily holds a new challenge for these busy people? Next Steps are included at the back of the book to prompt further discussion and develop vocabulary as well as information about the characters alongside the protagonists, for example a nurse from the doctor's surgery and the commander at the fire station.

**The Robot BopMar 10 2021** Ro the Robot loves to bop. When he starts dancing, the other Robots stop and watch. He gets nervous and wobbles then topples. But when he sees the other he realises that his Robot Bop has caught on. The Robot Bop is one of a fantastic new fiction reading series for children aged 5+ that combines structured phonic progression with great stories. Devised with the help of an expert consultant, it is sure to enable children to achieve reading success. Specially created for use by both parents and teachers, I Love Reading Phonics is a comprehensive reading scheme based on Synthetic Phonics and arranged in 7 progressive levels, giving plenty of practice in all the sounds of the English language. Each book includes clear instructions on Synthetic Phonics, a pronunciation grid and expert advice on how to get the most out of each title. Level 6 titles explore one spelling representing more than one sound.

**Busy People: TeachApr 30 2020**

**Baby Owl's RescueNov 06 2020** What if you found a baby owl in your backyard? Would you know what to do? Where would you go to find help? Join young Maddie and Max as they learn a lesson from a little lost owl in Baby Owl's Rescue by Jennifer Keats Curtis. The brother and sister pair just wanted to play baseball one day. They never expected to come face-to-face with Lush illustrations by Laura Jacques accompany this story and demonstrate the proper treatment of wildlife. This story reminds all of us that we live in a world surrounded by wild animals and animals deserve our caution and our respect!

**What Do Grown-ups Do All DayMay 12 2021** Featuring more than one hundred jobs, this book gives children a fascinating insight into what grown-ups do all day. Explore fifteen busy scenes from diverse work places, then turn the page to find out what each person's job entails. Packed with detailed scenes and information, this is a sure-fire instant classic.

**Spaceman (Adapted for Young Readers)D1 2020** An astronaut who completed spacewalks on two Hubble missions tells his inspiring story in this middle grade adaptation of his bestselling memoir, *Spaceman: An Astronaut's Unlikely Journey to Unlock the Secrets of the Universe*. Fans of *The Right Stuff* and *Apollo 13* will be thrilled by this astronaut's real life adventure. From age seven was seven-years-old and saw Apollo 11 land on the moon, Mike Massimino dreamed of becoming an astronaut. Long Island is a long way from space. Kids like him, growing up in working-class neighborhoods seldom left the neighborhood. But with the encouragement of teachers and mentors, Mike ventured down on a path that took him to Columbia University and to MIT. It wasn't easy. There were setbacks and disappointments aplenty--and NASA turned him down three times. Still, Mike never gave up. He rose to each challenge and forged ahead, inching closer to realizing his boyhood dream of love of science and space, along with his indomitable spirit and sense of teamwork eventually got him assigned to two missions to fix the Hubble Space Telescope--as a spacewalker. Spacewalkers are readers on Mike's unlikely ride from Earth to space, showing the breathtaking wonder of science and technology along the way. "Mike Massimino is a spaceman through and through. In this book, for young people, he tells us how hard work can take you out of this world. He believes in teamwork, and he never gives up. Prepare to be inspired." --BILL NYE, SCIENCE GUY and CEO, THE PLANETARY SOCIETY

**The Astronomically Grand PlanJul 02 2020** Astrid is excited about her upcoming first year of Shooting Stars, a club dedicated to all things space, but now that her best friend Hallie is more into art Astrid is not sure her goal of becoming an astronaut will happen without her friend.

**Astronaut 29 2022** What's it really like to be an astronaut? Find out in this delightful picture book and discover the everyday and extraordinary events of life on a space station. A fun and first guide to a most exciting and unusual profession. It's a busy day for astronauts Jenny, Chen and Kim. They are going to the space station on an important mission. The crew are there to do what is wrong with Robo-bot?

**The Astronaut Who Painted the Moon: The True Story of Alan BeanOct 05 2020** Journey to the moon on the Apollo 12 mission with Alan Bean, the fourth astronaut to walk on the lunar surface and the only artist to paint its beauty firsthand! As a boy, Alan wanted to fly planes. As a young navy pilot, Alan wished he could paint the view from the cockpit. So he took an art class to learn to paint. But no class could prepare him for the beauty of the lunar surface some 240,000 miles from Earth. In 1969, Alan became the fourth man and first artist on the moon. He took dozens of photographs compared to what he saw through his artistic eyes. When he returned to Earth, he began to paint what he saw. Alan's paintings allowed humanity to experience what it truly felt like to view the moon. Journalist and storyteller Dean Robbins's tale of this extraordinary astronaut is masterful, and artist Sean Rubin's illustrations are whimsical and unexpected. With back matter that includes a NASA mission, images of Alan's paintings, and a timeline of lunar space travel, this is one adventure readers won't want to miss!

**Digital ApolloNov 25 2019** The incredible story of how human pilots and automated systems worked together to achieve the ultimate achievement in flight—the lunar landings of NASA's Apollo 11. As Apollo 11's Lunar Module descended toward the moon under automatic control, a program alarm in the guidance computer's software nearly caused a mission abort. Neil Armstrong's quick thinking switching off the automatic mode and taking direct control. He stopped monitoring the computer and began flying the spacecraft, relying on skill to land it and earning praise for a triumph over the machine. In *Digital Apollo*, engineer-historian David Mindell takes this famous moment as a starting point for an exploration of the relationship between humans and computers in the Apollo program. Each of the six Apollo landings, the astronaut in command seized control from the computer and landed with his hand on the stick. Mindell recounts the story of astronauts' desire to control the spacecraft in parallel with the history of the Apollo Guidance Computer. From the early days of aviation through the birth of spaceflight, test pilots and astronauts sought to be more than mere passengers despite the automatic controls, digital computers, and software developed by engineers. *Digital Apollo* examines the design and execution of each of the six Apollo moon landings, drawing on archival and data telemetry from the flights, astronaut interviews, and NASA's extensive archives. Mindell's exploration of how human pilots and automated systems worked together to achieve the flight—a lunar landing—traces and reframes the debate over the future of humans and automation in space. The results have implications for any venture in which human roles seem threatened by automated systems, whether it is the work at our desktops or the future of exploration.

**Busy People: BuildJul 22 2019** Each book in the Busy People series focuses on a different character as they go about their work and the challenges each day brings. In this book, meet Misha, a house builder, who is helping the Singh family turn their old house into a dream home.

**Astronaut HandbookOct 25 2019** Do you have what it takes to be an astronaut? Blast off in this fun nonfiction picture book by the author of *Pop! The Invention of Bubble Gum* to find out! This book has appealing text and funny, brightly colored illustrations, Meghan McCarthy transports aspiring space travelers to astronaut school in her young nonfiction picture book. Take a ride on the space shuttle and learn how it feels to be weightless. Try a bite of astronaut food, such as delicious freeze-dried ice cream. Have your measurements taken—100% of your hand alone—for your very own astronaut handbook ready for liftoff! "McCarthy introduces the paraphernalia of rocket travel with a corollary, direct humor that understands and respects its audience." —Booklist "This appealing book is sure to captivate its audience." —School Library Journal

**Through the Glass Ceiling to SpaceApr 31 2021** The long-awaited memoir of a trailblazer and role model who is telling her story for the first time. Eileen Collins was an aviation pioneer her entire career, from her crowning achievements as the first woman to command an American space mission as well as the first to pilot the space shuttle to her early years as one of the Air Force's first female pilots. She was in the first class of women to earn pilot's wings at Vance Air Force Base and was their first female instructor pilot. She was only the second woman pilot admitted to the Test Pilot Program at Edwards Air Force Base. NASA had such confidence in her skills as a leader and pilot that she was entrusted to command the first shuttle mission after the Columbia shuttle returning the US to spaceflight after a two-year hiatus. Since retiring from the Air Force and NASA, she has served on numerous corporate boards and is an inspirational speaker about space exploration and leadership. Eileen Collins is among the most recognized and admired women in the world, yet this is the first time she has told her story in a book. It is a story not only of achievement but of obstacles, but of profound personal transformation. The shy, quiet child of an alcoholic father and struggling single mother, who grew up in modest circumstances and was an unremarkable student, had few prospects when she graduated from high school, but she changed her life to pursue her secret dream of becoming an astronaut. She shares her leadership and life lessons throughout the book with the aim of inspiring and passing on her legacy to a new generation.

**Busy SpringJan 20 2022** In this uplifting picture book about spring, follow two children and their father through their backyard as they discover all the different ways nature wakes up from winter sleep. Spot the busy creatures and plants as the tale unfolds, then learn about how each responds to the increasing daylight and warmth that usher in the season. Co-authors Sean (the book author) and Alex Morss (ecologist, journalist, and educator) offer an inviting introduction to the science behind spring. The yard is bright, birds are singing, the bees are buzzing, and the tadpoles in the pond! What is all the commotion about? In each colorful scene, the family discovers a different sign of spring—a bird collecting twigs for its nest, a fox snuggling her cubs, a fox feasting on leaves... After the story, annotated illustrations explain the spring behaviors of various plants and animals. Inspire an appreciation for the natural world in this joyous exploration of spring.

**The Dream Life of AstronautsMar 30 2020** For readers of Tom Perrotta and Lorrie Moore, these nine unforgettable stories, all set in and around Cape Canaveral, showcase Patrick Ryan's masterful understanding of regret and hope, relationships and family, and the universal longing for love. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *St. Louis Post Dispatch* • *Refinery 29* • *Electric Blue* Literature *The Dream Life of Astronauts* balances heartbreak with wry humor as its characters try to make sense of the paths they find themselves on. A would-be Miss America audition; a talent scout over vodka and Sunny D; a NASA engineer begins to wonder if the woman he's having an affair with is slowly poisoning her husband; a Boy Scout troop leader, recovering from a traffic accident, tries to protect one of his scouts from being bullied by his own sons; an ex-mobster living in witness protection feuds with the busybody head of his condo board; a grandmother, sentenced to prison after a traffic accident, surprises herself by falling for her instructor. Set against landmark moments—the first moon launch, Watergate, the Challenger explosion—these private dramas unravel in ways that are both intimate and universal. *The Dream Life of Astronauts* ratifies the emergence of an indelible new talent in fiction. Praise for *The Dream Life of Astronauts* "[Ryan] displays a gift for excavating the dashed hopes and yearnings that lie beneath. He is especially adept at capturing the point of view of children, with a Salingeresque understanding of their alienation, their vulnerability, their keen powers of observation."—Michiko Kakutani, *The New York Times* "Quietly commanding . . . A wry and smart collection—a beam of intelligent life from an author who clearly likes to probe the outer edges of the familiar."—Maureen Corrigan, NPR's *Fresh Air* "Ryan is a master of that old-fashioned, captivating storytelling that deceptively reads as effortless. . . . Ryan never actually sends his characters into space; but his orbits of the human heart are enough."—*The New York Times Book Review* "Ryan brings a wry sense of intimacy to these dreamers who are always searching for a better life than the one they have."—BBC "Patrick Ryan's short stories go down lightly—but that doesn't mean they're lightweight. In the best of them, Ryan's transparent prose and seemingly casual tone sneakily ensnare you in tough moments and wryly rueful deflations of the heart and spirit."—*The Seattle Times* "You don't have to be a rocket scientist to appreciate this funny collection of stories set around Cape Canaveral. Moon missions and shuttle launches take a backseat to the earthly predicaments faced by the eclectic cast of Boy Scouts, gangsters, grandmothers and beauty queens."—*The Atlanta Journal-Constitution* "There is humanity and heart in each one of these tales, all rendered with nuance and depth that will leave a mark on your thoughts long past the final pages."—*Refinery29* "Patrick Ryan's people who are a little more beaten down than they know. They are not introspective by default, and yet, due to circumstances, they are forced to look into themselves and find something that makes them feel like life."—Literary Hub "The author illuminates [his] characters with pitch-perfect dialogue and period references that capture the various decades in which the stories take place."—*Publishers Weekly*

**DoctorMar 22 2022** Discover what a teacher, a doctor, a firefighter and a vet do and how they help the community. Each story focuses on a different character as they go about their daily work holds a new challenge for these busy people? Next Steps are included at the back of the book to prompt further discussion and develop vocabulary as well as information about the characters that work alongside the protagonists, for example a nurse from the doctor's surgery and the commander at the fire station.

No You Can't be an Astronaut 08 2021 Houston, we have a problem. Half of recent college graduates are either unemployed or underemployed. You don't want well-intentioned platitudes reaching for the stars. You want to know: Should I go to college? What should I major in? Where am I likely to succeed? How can I avoid student debt? How can I find a job when more and more qualified people are chasing fewer and fewer jobs? How do I keep my job once I have it? Can I really improve my emotional intelligence? Sure, follow your dreams, and you'll never work a day in your life. Because that field's not hiring. Or get usable, evidence-based career planning advice. The Second Edition has 120 references and up-to-date information on the current job market.

Spaceman Jan 28 2020 NEW YORK TIMES BESTSELLER • Have you ever wondered what it would be like to find yourself strapped to a giant rocket that's about to go from zero to 17,500 mph in 15 minutes? Or to look back on Earth from outer space and see the surprisingly precise line between day and night? Or to stand in front of the Hubble Space Telescope, wondering if the emergency you're about to make will inadvertently ruin humankind's chance to unlock the universe's secrets? Mike Massimino has been there, and in Spaceman he puts you inside the suit, with all the buoyancy of life in microgravity. Massimino's childhood space dreams were born the day Neil Armstrong set foot on the moon. Growing up in a working-class Long Island family, he catapulted to Columbia and then MIT, only to flunk his first doctoral exam and be rejected three times by NASA before making it through the final round of astronaut selection. Taking us through the surrealism and beauty of his first spacewalk, the tragedy of losing friends in the Columbia shuttle accident, and the development of his enduring love for the Hubble Telescope—which he and his fellow astronauts were tasked with saving on his final mission—Massimino has written an ode to never giving up and the power of teamwork to make anything possible. Spaceman invites us into a rare, wonderful world where science meets the most thrilling adventure, revealing just what having "the right stuff" really means.
