China From Where We Stand Nov 08 2020 What is Comparative Sinology? *China from Where We Stand* brings together powerful, diverse voices to define the boundaries and possibilities of this new field, providing a range of perspectives – insider, outsider and in-between – with China at the center. This exemplifies a new China: progressive, outward-looking, yet reflective. Comparative Sinology studies how China has been studied. In today's global world of hybrid, hyphenated identities, such studies cannot be confined to how non-Chinese study China. What does it mean to be Chinese? Where does it start? Where does it end? Like the related disciplines of China Studies and National Studies, Comparative Sinology is interdisciplinary. Though the four parts of this book represent Philosophy, Literature, History, and Culture, all articles could fit in at least two of these categories. This book redefines the boundaries of traditional academic study, including the subject position, as it is essential, when trying to understand China and its place in the world today, to look at the place of each one of us. Personal connections may be explicit or implicit; but every author here is passionate and personally connected to the work that he or she does, and to China's future. The practical and intellectual possibilities of this discipline are vast and varied, and this book offers a potential springboard for such ideas.

Divided We Stand Dec 30 2019 This topical and absorbing book, written by two eminent journalists, explains why India has entered a new era of coalition politics. It analyses the consequences and implications of this relatively recent phenomenon. India has come a long way from the time since the Congress dominated the country's polity. The authors argue that the multi-party structure of government, or a coalition government, is neither temporary nor an aberration. Coalitions are here to stay, at least in the foreseeable future. The authors dismiss the view that India's polity is essentially bipolar, that is, led by either of the two largest political parties - the Congress or the Bharatiya Janata Party. They do not accede to the contention that other political parties have no option but to align themselves with either the Congress or the Bharatiya Janata Party. Continuing the analysis begun in their earlier work, *India in a Time of Coalitions: Divided we Stand* (Sage, 2004) both authors skilfully piece together the complex jigsaw of Indian politics. The authors point to the fragmentation of Indian polity with the rise of caste-based and regional parties and the formation of coalitions at the federal as well as provincial levels. This, they say, should not be perceived as a negative feature but as a positive influence on the working of the country's democratic structures. The authors take the view that coalition governments are in fact better equipped to deal with the tensions of India's deeply divided and highly hierarchical society. In comparison,

governments dominated by single parties tend to both centralize and homogenize. Among the issues the book analyzes are " The impact of the April-May 2004 general elections that saw the dramatic decline of the National Democratic Alliance led by the BJP and its replacement by a government formed by the United Progressive Alliance coalition led by the Congress with outside support from four left parties " A gradual revival in the fortunes of the Congress after the party had witnessed its traditional supporters - including the minorities and the disadvantaged groups - deserting it in large numbers " The sudden rise and fall of the BJP from the time it was almost wiped out in 1984, the party's faction-ridden character and its inability to quickly come to terms with its electoral defeat in 2004 " The growing importance and the changing tactics of the left parties, their internal differences and mainstreaming and their influence on the country's economic policies " The crucial question of whether coalitions can provide stable governments and under what circumstances " The possibility of alternate political formations - led neither by the Congress nor the BJP - coming to power at the centre " The extent to which political coalitions have led to better governance, brought about a greater degree of federalism and reduced the incidence of corruption " The manner in which successive governments have handled the new politics of economic liberalization and globalization together with the crucial issue of growth with equity Challenging many commonly held views regarding India's political processes, this fascinating book will delight anyone interested in Indian politics at the beginning of the 21st century.

Divided We Stand May 03 2020 The fascinating true story of the characters in Hulu's "Mrs. America" and a broader portrait of the two women's movements that spurred an enduring rift between liberals and conservatives. "The many admirers of 'Mrs. America' . . . will find great satisfaction in [Divided We Stand] . . . a clear, compelling and deeply insightful volume." -The Washington Post One of Smithsonian Magazine's Ten Best History Books of the Year In the early 1970s, an ascendant women's rights movement enjoyed strong support from both political parties and considerable success, but was soon challenged by a conservative women's movement formed in opposition. Tensions between the two would explode in 1977 at the congressionally funded National Women's Conference in Houston, Texas. As Bella Abzug, Gloria Steinem, and other feminists endorsed hot-button issues such as abortion rights, the ERA, and gay rights, Phyllis

Schlafly and Lottie Beth Hobbs rallied with conservative women to protest federally funded feminism and launch a pro-family movement. *Divided We Stand* reveals how crucial women and women's issues have been in the shaping of today's political culture. After the National Women's Conference, Democrats continued to back women's rights in cooperation with a more diverse feminist movement while the GOP abandoned its previous support for women's rights and defined itself as the party of family values, irrevocably affecting the course of American politics.

It is the real life stories about her family and the challenges, heartbreak, trauma, and grief they struggled through when her husband Emmett was murdered. family that we . . . are never alone.

Judaism in Late Antiquity 3. Where we Stand: Issues and Debates in Ancient Judaism Jul 17 2021 This collection of systematic "Auseinandersetzungen" articulates difference and spells out what is at issue. Learning atrocities when political consensus substitutes for criticism, and when other than broadly-accepted viewpoints, approaches, and readings find a hearing only with difficulty, if at all. The editors therefore have invited colleagues systematically to outline their views in an "Auseinandersetzung" with contrary ones. The several participants explain how, in broad and sweeping terms, they see the state of learning in their areas of special interest. The editors invited leading players in the USA, Europe, and the State of Israel, in the study of ancient Judaism, both in Second Temple Times and after 70 C.E. The work commences with a thoroughly fresh perspective of a theoretical question: what, in a religion so concerned with social norms and public policy, can we possibly mean by "law" when we speak of law in Judaism. It then proceeds with two chapters on Second Temple Judaism, and two on the special subject of the Dead Sea library. The two papers in the present part provide an overview of matters and a systematic, critical account of the fading consensus, respectively. The next set of papers ought to stand as the definitive account of the diverse viewpoints on a basic question of method. Because of the willingness of contending parties to meet one another in a single frame of discourse, the work is able to portray with considerable breadth the presently-contending viewpoints concerning the use of Rabbinic literature for historical purposes. Then proceed a number of other accounts of how matters look from the perspective of major participants in scholarly debate. At the sametime as the requirements of historical-critical reading of the Rabbinic literature precipitated sustained and vigorous debate, other problems have attracted attention. Among these a critical issue emerges in the hermeneutics to govern the reading of the documents for the purposes of other-than-historical study, feminist interests, for example.

The Moments We Stand Oct 27 2019 My name is Ashlee. I am a victim of murder. Through a series of events and by two shots of a gun, I was made a widow at the age of 28, with my youngest child just six weeks old. I am a victim of infidelity. I have felt unlovable. I have felt rejected. I have had days in my life when I wasn't sure if I would ever take a breath again, let alone be able to raise my five children by myself. I have lived in fear. I have felt much heartache. I have felt truly broken to my core. I have carried some heavy burdens...not only of my own, but burdens put upon my shoulders by the death of my husband. I have felt alone. I have felt humiliated. I have been humbled to my knees. I have searched my soul to find my worth in this world, and in the life that was left for me. My world has been totally shattered. I have faced realities I never knew were possible, and found strength within myself to keep up the fight and live every day as if it was on purpose. I have been carried by Angels...both earthly beings and those unseen. I have found that being a "victim" doesn't mean we have an excuse to stop living. Being a victim means finding a reason for seeking a higher road. I have picked up the pieces left and carried on. I am a mother. We are survivors. In one way or another, we are all victims. There are times in our lives when we are forced to question who we are at our core. When we are presented with a path...we can go this way or we can choose that way. For some, this moment comes when the one person whom we love the most decides we are not enough. This person leave us-at a most vulnerable moment-alone to search within ourselves for who we really are. We are left trying to find who it is that was left behind. Sometimes the person we love dies. Sometimes it is merely an

internal battle we are facing...all alone inside our minds. Whatever the situation and wherever you have been...you have been hurt. You have felt alone. You have been abandoned, either by your parents, your lover, your friends, complete strangers, or even yourself. We have all been at that crossroad where all we have left is ourselves. Sometimes these moments of lows have brought you to your knees and caused you to reflect and ponder your relationship with God...and other times they have made you question if He is even there, or if He knows you are alone. Whatever that moment has been for you, it is personal and real. It has defined and refined who you are, who you think you were, and who you want to become. This is my story...the defining moments that have truly brought me to my knees, the times when I've questioned to my core my very existence, and the experiences I've had that have shown me who I really am and who my Heavenly Father still needs me to become. The night of my husband's death was my darkest hour, but also the very moment when I saw firsthand that my Heavenly Father sent Angels on errands for me. He carried me. It was the hour when all my fears and all the pain of this world collided together and He was there...putting back together all the pieces, one step at a time. Surviving the Evacuation Jul 05 2020 Within a few minutes of the outbreak, Manhattan was overrun by the living dead. Within a few days, the undead had reached every corner of the globe. Ireland was no exception. There was no evacuation of Northern Ireland, and no quarantine in the Republic. A Royal Naval blockade prevented ships from docking, but they didn't prevent those who could reach the coast from fleeing by sea. There weren't enough boats for everyone. Those who were left behind took refuge in castles, police stations, churches, military bases, and any other buildings with strong walls. The walls weren't strong enough. Eight months later, there are only a few dozen survivors left on the entire island of Ireland. They are certain that there is no safe refuge anywhere on the planet. Stranded on the southwestern Atlantic coast of the Irish Republic, Bill and Kim head north. They know that there is a safe haven on Anglesey, but that is hundreds of miles of undead Ireland and a treacherous sea crossing away. They begin a journey on which they will have to rescue the innocent and confront the past before they can embrace the future.
