A Fast Track Course in MENTAL ABILITY May 29 2022 This book has been designed to act as a fast track preparation and revision resource for the students preparing for different talent search competitions, Olympiads, etc. The Mental Ability questions are asked in various talent search examinations conducted across the country by different institutions. The present book for Mental Ability has been divided into Verbal and Non-Verbal. The Verbal section covers Similarity of Pairs, What Comes Next, Odd One Out, Alphabet & Number Sequence Test, Coding Decoding, Mathematical Operations, Inserting the Missing Character, Ranking Test, Blood-Relations, Direction Sense Test, Puzzle Test, Clock & Calendar and Logical Venn Diagram whereas the Non-Verbal section covers Figure Analogy, Figure Series, Figure Classification, Mirror & Water Images, Paper Folding & Paper Cutting, Figure/ Pattern Completion, Formation of Figures, Dot Situation, Counting of Figures, Embedded Figures, Cube & Dice, Logical & Analytical Reasoning, Basic Arithmetic, Geometry & Mensuration, Data Interpretation and Data Sufficiency. Each chapter in the book contains ample number of solved and practice problems based on the questions asked in previous years' talent search examinations and Olympiads. Theoretical content has also been provided in the book to help aspirants get in-depth knowledge of the concepts. The book also contains Solved Papers NTSE State Level (Stage I) and National Level (Stage II) 2014 & 2015 to help students get an insight into the types of questions asked in these examinations. Also answers to the practice exercises have been given at the end of the book. As the book contains ample study as well as practice material, it for sure will help aspirants get an insight into the types of questions which may be asked in the upcoming talent search examinations and Olympiads.

Customer Centricity Feb 11 2021 A powerful call to action, Customer Centricity upends some of our most fundamental beliefs about customer service, customer relationship management, and customer lifetime value NOT ALL CUSTOMERS ARE CREATED EQUAL Despite what the tired old adage says, the customer is not always right. Not all customers deserve your best efforts: In the world of customer centricity, there are good customers...and then there is pretty much everybody else. In Customer Centricity, Wharton professor Peter Fader, coauthor of the follow-up book The Customer Centricity Playbook, helps businesses radically rethink how they relate to customers. He provides insights to help you understand: Why customer centricity is the new model for success and product centricity must be ushered out How the ideas of brand equity and customer equity help us understand what kinds of compa-nies naturally lend themselves to the customer-centric model and which ones don't Why the traditional models for determining the value of individual customers are flawed How executives can use customer lifetime value (CLV) and other customer-centric data to make smarter decisions about their companies How the well-intended idea of customer relation-ship management (CRM) lost its way-and how your company can properly put CRM to use Customer Centricity will help you realign your performance metrics, product development, customer relationship management and organization in order to make sure you focus directly on the needs of your most valuable customers and increase profits for the long term. ALSO AVAILABLE: Once Fader convinces you of the value of customer centricity in this book, The Customer Centricity Playbook, with Sarah Toms, will show you where to get started. "Reveals how to increase profits from your best customers, find more like them, and avoid over-investing in the rest....Decidedly accessible and absolutely necessary." -Jim Sterne, Founding President and Chairman, Digital Analytics Association "Perfect read...It's short (60-90 minutes), clear, and the best summary I've read of why companies should rethink their approach to customers." -Andrew McFarland, SVP, Chief Customer Officer, Black Box "Knowing what your customers are worth is the secret to focusing your time and money where it makes the most difference. You can't be all things to all people, so you need to learn to find out who really matters to your success. Fader makes it clear with great ideas and a readable style." -Andy Sernovitz, author, Word of Mouth Marketing THE WHARTON EXECUTIVE ESSENTIALS SERIES The Wharton Executive Essentials series from Wharton Digital Press brings the ideas of the Wharton School's thought leaders to you wherever you are. Inspired by Wharton's Executive Education program, each book is authored by globally

renowned faculty and filled with real-life business examples and actionable advice. Wharton Executive Essentials guides offer a quick-reading, penetrating, and comprehensive summary of the knowledge leaders need to excel in today's competitive business environment and capture tomorrow's opportunities.

Education and Skills for Inclusive Growth, Green Jobs and the Greening of Economies in Asia Mar 03 2020 This book presents an overview of the main research findings and case studies concerning education and skills for inclusive growth, green jobs and the greening of economies. Focusing on India, Indonesia, Sri Lanka and Viet Nam, it discusses government and business sector responses to these issues and how Technical and Vocational Education and Training (TVET) systems and institutions are addressing both the renewal of curricula in the context of green growth dynamics, and patterns of training and skills development to meet demands. In addition, the book examines cross-country issues, concerns and prospects regarding education and skills for inclusive growth and green jobs for the four countries. These include critical themes and issues in the selected industry sectors triggering a demand for green jobs in the region; how industry is responding to those demands; areas impeding the transition from traditional to green practices; the importance of skills development; the role of TVET in addressing industry needs; and reasons for the slow response of TVET to green skills. While other studies conducted in Asia – and internationally - on the same topic have largely relied on secondary sources, this study conducted by the Asian Development Bank and the Education University of Hong Kong (ADB-EdUHK) is unique in that the findings, conclusions and recommendations reported on are based on primary data. As part of the study, TVET providers, business enterprises, policy makers and practitioners were surveyed using questionnaires and face-to-face interviews. In addition, workshops were held in each of the four countries to ascertain the views of key stakeholders in government, nongovernment organisations, members of the international development community, TVET providers and members of the business sector. The book also provides summaries of the case studies undertaken for India, Indonesia, Sri Lanka and Viet Nam.

Management and Entrepreneurship Feb 23 2022 About the Book: Of late, academicians of technical education have felt the importance of "Management" and "Entrepreneurship". Engineers need to manage their departments/sections/subordinates, and Entrepreneurship helps the large pool of technical manpower in developing small-scale industries in high tech areas thereby contributing to the economy of the country. This book covers both 'Management' and 'Entrepreneurship'. The first chapters of this book deal with Management, Planning, Organizing and Staffing, Directing and Controlling. The last four chapters deal with Entrepreneurship, Small-Scale Industries, Institutional support and Project formulation. Adequate number of simple examples with which the students are familiar are included in each chapter. In addition, each chapter contains student learning activities to give the readers a chance to enhance the learning process. Though the book is written keeping in mind the syllabus of Visvesvaraya Technological University, yet it is useful for B.Com, BBM, DBM, . PGDBM and MBA students also. Contents: Management Planning Organizing and Staffing Directing and Controlling Entrepreneurship Small-Scale Industries Institutional Support Preparation of Project.

Ecosustainable Polymer Nanomaterials for Food Packaging Nov 22 2021 Polymer nanotechnology offers exciting benefits to the food industry, including better materials for food packaging and safer foods on supermarket shelves with lower incidences of contamination. Ecosustainable Polymer Nanomaterials for Food Packaging: Innovative Solutions, Characterization Needs, Safety and Environmental Issues examines the complete life cycle of packaging based on polymer nanomaterials. Focusing on current developments in nanomaterial packaging applications most likely to be accepted by consumers and attract regulatory attention in the immediate future, the book begins with a general introduction to current issues and future trends. The remaining chapters explore: The concept of "ethical design"—putting into practice key ideas such as the precautionary principle and presenting a model for accountability, responsibility, and ethical consideration The evolution of the rheology, structure, and morphology of nanomaterials with

regard to processing conditions and constituents The application of plasma technologies for the production of barrier coatings on polymeric materials by nonequilibrium gas discharges Nanomaterials for food packaging developed from oil polymers (polyolefins) and from renewable resource polymers The use of cellulose nanowhiskers for food biopackaging and edible nano-laminate coatings The interactions of nanomaterials with food Examples of degradation under natural weathering, exposure, and recycling The book concludes with a discussion on the use of polymer nanocomposite materials for food packaging applications. From raw material selection to properties characterization to marketing and disposal, the expert contributors consider the balance between cost and performance, risk and benefit, and health and environmental issues. They also identify barriers to progress that prevent a complete successful development of the new technology and recommend strategies for further advancement.
