A Statistical Portrait of the Kerala

University Aug 25 2022

Campus Plus 2019 Feb 07 2021 India, bounded
by the majestic Himalayan ranges in the North

and edged by an endless stretch of golden beaches, is the land of hoary tradition and cultural diverse. Vivid kaleidoscope of landscapes, glorious historical sites and royal cities, misty mountain hideaways, colourful people, rich civilizations and festivities craft India Incredible. Recent years have witnessed the educational scene, especially the higher education sector in the State undergoing a sea change in respect of quality, diversity and accessibility in tune with the global trends. Kerala's surge in the educational front is to be

viewed in the backdrop of the country's great legacy in education. India has been a major seat of learning for thousands of years. The country was home to Takshashila, the first university in the world and Aryabhata, the inventor of the digit Zero. In fact, education in Kerala has now become more value added and affordable, thanks to the pro-active initiatives of the State Government and active involvement of the private sector. Moreover, in the higher education market, Kerala has a significant edge in respect of cost which means that there would be growing influx of candidates into the state from outside the state for better and affordable professional education in the days to come. With the most sought after professionals and excellent network of institutes Kerala is becoming the very preferred educational destination in the world. And, we are equipped for you with some elucidations which step-up her significance in the educational map. In Campus Plus, we propose some valuable information along with a

number of educational institutes in the State which will be useful for the students and parents in the higher education scenario.

Education and Social Mobility Aug 13 2021

This book focuses on the provision of basic social services, in particular, access to education, as the central building blocks of any human development strategy and it also signifies a substantial contribution towards the central role of education in social mobility. In examining the impact of educational development of any society or group, the questions that the proponents of egalitarian approach ask are: Who benefits? Who loses? What is the resulting socio-economic status of the people? Although gender inequality in education is not so prominent in Kerala, the difference between communities and classes is one of the critical aspects of this broader phenomenon of disparity in Kerala. Recent studies regarding poverty and inequality show that although poverty is declining, inequality between socio-economic groups is

increasing in Kerala. In this scenario, the educational backwardness of the socio-economic groups in Kerala is a matter of particular concern to the policy makers and this book hopes to provide some insight into this subject. It will be highly useful to policy makers, administrators and academicians.

Right to Education in India Dec 05 2020 This is one of the first volumes to comprehensively discuss resource constraints and institutional challenges in realizing the Fundamental Right to Education (RTE) in India. It looks at various aspects of the Sarva Shiksha Abhiyan (SSA), the primary vehicle to implement RTE and a flagship programme to universalize elementary education in the country. The book presents a comparative perspective across regions and states and evaluates the effective delivery of SSA at the grassroots level. Using rich empirical data, not yet available in the public domain, it provides valuable lessons for the planning and financing arrangements of SSA-RTE between the centre

and the states, and towards understanding access, equity and quality of education. The work will be a major resource for scholars and researchers of education, economics, public policy, development studies, and politics.

Fiscal Decentralisation and Economic Development: The Kerala Experience Sep 26 2022 Fiscal Decentralisation and Economic Development: The Kerala Experience signifies a substantial contribution of the trends in the central government's fiscal transfers and its impact on Kerala and all state finances between the fiscal years 1980-81 and 2012-13. Regional disparity in resource transfer and economic development are often sources of political tensions and dissatisfaction in a federal system. The fundamental economic argument advanced in favour of decentralised government activity has been that decentralisation is a means to enhance the efficiency of government activity, to increase social welfare and to promote economic

development and growth. Despite constitutional recognition of the third tier in 1992, analysis of fiscal decentralisation incorporating the role and functions of the third tier in conjunction with the first two tiers does not exist. This study is an attempt to provide a more complete picture of the fiscal federalism in Kerala incorporating all the three tiers of government. Before the policymakers shift to some new theories on deciding the allocation of very valuable scarce national resources to states through the Finance Commission and Planning Commission and thereby providing strong incentives to influence the development strategy of states, it is pertinent that we consider some empirical relationships from the data on Indian states and this book hopes to provide some insight into this direction, which will be highly useful to policy makers, administrators and academics.

Governments of the Future in the ICT Era Apr 09 2021 Before September 11, security meant smart cards, passwords, PIN codes, firewalls,

Public Key Infrastructure Initiatives (PKI) and Symmetric Key Infrastructure (SKI). But after this tragedy, the focus has shifted to managing e-governance with a lot more em

Law of Limitation in India Jan 26 2020

Moving with the Times Feb 25 2020 This book is an attempt to penetrate the silence that surrounds the lives of nurses as migrant women. It offers a perceptive understanding of the trials faced specifically by women from the state of Kerala, in their personal and professional spheres, in the challenges posed to single women migrants as such, and the lower status ascribed to the job. In highlighting aspects of their lived experiences, it reveals how the identities of gender, class and ethnicity unmask the realities behind claims of egalitarianism and equal citizenship. Nurses from Kerala form one of the largest groups of migrant women workers in the international service sector along with Filipinos and Sri Lankans. Comparatively better salaries, work opportunities and financial

independence, along with a desire to travel across the world, are often the reasons behind these migrations. For many of these women, the professional choice of nursing is usually the first step towards migration, while finding employment in Delhi, the urban capital of India, is intended as a transition point before they migrate abroad, a trajectory which may remain unrealised. In focusing on nurses who choose to work in Delhi, the author recounts how the patriarchy of the original place is recreated and relived in destination cities. In as much as traditional stigmatisation of nursing (as a 'dirty' profession), deeply entrenched gender prejudices, and status and role anxieties act as deterrents, these women remain undaunted in the face of adversities and treat their exposure to, and experience of, technology and nursing care in the bigger hospitals in Delhi as part of the training that is required to apply abroad. Through extensive empirical research, case studies and personal interviews, *Moving with the*

Times illustrates nurses' lives in Delhi, providing an account of the dynamics — between traditional patriarchy, norms and associated identities, low professional status and marginality coupled at once with the sense of personal freedom, a new career and space — that migration compels these women to negotiate. This book will appeal to scholars of sociology, gender and women's studies, nursing and healthcare, and those interested in migration and identities.

A Textbook of Engineering Mathematics Jun 11 2021

Heal-Thy India Mar 08 2021 69 years after having gained a hard-won and much cherished Independence, can we really say that we have made giant steps towards a healthy India? Have we been able to ensure a healthy life and adequate health-care for our millions - especially the marginalised? Are the numerous celebrated Super-Speciality Hospitals, with their proud teams of highly qualified specialist doctors, their

Five-star ambiances extruding an aura of comfort for the patients, and their state-of-the-art imported equipment, an indicator of our having achieved high standards in health-care? Does health-care mean disease-care alone? Rather, does it not mean ensuring clean environment, safe drinking water, balanced food in adequacy, good hygiene and sanitation and good lifestyle habits – so that the root causes of diseases may be eradicated? What should be the priorities in medical education, and what aptitudes and attitudes should we look for, and foster in aspiring doctors? What are the good practices in health-care obtaining in the developed world, which we may emulate? A committed professional with over three decades of tireless service in the field of medicine and medical teaching, shares his thoughts on these and much more... A must-read for every doctor, every medical student, everyone who is health-conscious and for everyone who has the interests of society and his fellow men at heart...

Issues In Higher Education - Vol. I Jun 18 2019
Dr. K Venkata-subramanian presents the views of academicians, scientists, administrators and policymakers about what ails higher education in India. Volume I has articles by Dr. Arun Nigavekar, Dr. M S Swaminathan, Dr. I G Patel and Prof. Amrik Singh, am

The Routledge Handbook of Education in India Apr 28 2020 This comprehensive handbook introduces the reader to the education system in India in terms of its structural features, its relations with society and culture, and the debates that have shaped the present-day policy ethos. The book provides an overview of major debates that have shaped India's education systems, as well as the significant issues within higher and school education, education studies, and policies. Expert scholars provide a lucid analysis of complex themes such as the equity, access, and the quality of education. The volume also examines legal provisions and policies shaping the distribution

structure and curricular issues in major areas of knowledge, as well as the provision of schools for the marginalised, economically weak, and people with disabilities. This new edition includes an analysis of the private sector's participation in higher education and the technical and vocational education and training systems in India. This handbook will serve as a valuable resource and guide to educators and public policy practitioners seeking information about India's contemporary educational challenges. It will also be useful to scholars and researchers of education, public policy and administration, sociology, and political studies, as well as think-tanks, the media, policy-makers, and NGOs.

Classrooms and Playgrounds Jul 12 2021

What is schooling in our contemporary societies? Is it to equip students for functioning in an information culture and to develop skills that would enable them to become productive agents in a fast globalizing world? Or is it to develop

the capability to think and analyze? Mapping the complex transitions that mark primary education today in the state of Kerala, South-West India, this book offers fresh insights, both empirical and theoretical. Schooling here implies a set of cultural practices that cannot be reduced to processes of teaching and learning of prescribed texts and topics. With playground and classroom as the axis points that extend beyond their conventional meanings and temporal and spatial properties the book sites schooling as a cultural practice that shapes our everyday lives.

Social Mobility In Kerala Dec 17 2021 Filippo and Caroline Osella, anthropologists who spent three years in rural Kerala, south India, write about the modern search for upward social mobility: the processes involved, the ideologies that support or thwart it, and what happens to the people involved. They focus on the caste called Izhavas, a group that in the mid-19th century consisted of a small land-owning and titled elite and a large mass of landless and small tenants who were largely illiterate and considered untouchable, and who eked out a living by manual labor and petty trade. In the 20th century, Izhavas pursued mobility in many social arenas, both as a newly united caste and

as families. The work considers how successful the mobility has been and looks at the effects on their society of an ethos of progress. Distributed by Stylus. Annotation copyrighted by Book News Inc., Portland, OR

Index to the Times of India Nov 23 2019
Empowering People Jul 20 2019 The 73rd and 74th Amendments of the Constitution of India opened up new opportunities for devolution of powers to Panchayati Raj Institutions. Kerala attempted a novel programme of the Peoples Plan Campaign in 1996. A few months prior to this, the Integrated Rural Technology Centre, a research wing of the Kerala Sasthra Sahithya Parishad initiated an Action Research Programme in five panchayats to evolve a set of models of participatory planning for sustainable development and to create micro-level organizational structures to carry out them. This book is a systematic account of the half a decade long study involving thousands of people. The path for realising the goal of empowerment of

the people through participatory planning and implementation is an arduous one as it often upsets the apple carts of vested interests. The book deals with the heavy odds encountered in an action research that tries to modify the existing power structures at the local level.

Kerala Development Report Jun 23 2022 Full of data on various sectors and issues—among them finance, tourism, foreign trade, agriculture, and governance—this report on the state of Kerala is designed to benefit businesses, NGOs, and policy makers. While Kerala has a strong economy and is India's most literate state, areas such as human rights and the treatment of women and minorities leave room for improvement. This extensive reference discusses the constraints and challenges faced by Kerala and provides a blueprint for its socioeconomic progress.

Know Your State Bihar Aug 21 2019 Bihar is the eastern state of India. It is one of the fastest growing states in India. Bihar is the fourth

largest producer of vegetables and the eight largest producers of fruits in India. This state has high agricultural production making it one of the strongest sectors of the state. About 80 per cent of the state's population is employed in agriculture, which is much higher as compared to India's average. The state has a large base of cost-effective industrial Labour, making it an ideal destination for a wide range of industries. General knowledge of Bihar is essential for various competitive examinations and especially for the students who are appearing for Bihar Public Service commission (BPSC) and other state level examinations. The current edition of 'Know Your State - Bihar' gives the detailed study of History, Geography, Economy, Polity, Art & Culture, Center and State government welfare schemes and Current Affairs of Bihar. A systematic Chapter wise study will mark improvement in the performance of the students, moreover Tables, boxes and figures gives better representation for memorizing the main points.

More than 1100 MCQs have been provided at the end of each chapter that helps in understanding and preparing the subject at the exam point-of-view level. This book comes a quick, relevant and easy route for achieving in the examination. TABLE OF CONTENT Bihar: Basic Information, Ancient History of Bihar, Medieval History of Bihar, Modern History of Bihar, Tribal Revolts of Bihar, Formation of Bihar, Freedom Movements in Bihar, Formation of Bihar, Geographical Structure of Bihar, Climate and Soil of Bihar, Rivers and Drainage System, Natural Vegetation of Bihar, National Parks and Wildlife Sanctuaries of Bihar, Agriculture and Animal Husbandry in Bihar, Irrigation and Multi-purpose Projects in Bihar, Minerals and Energy Resources, Industries of Bihar, Transport on Bihar, Communication in Bihar, Administrative Set- up of Bihar, Bihar Judiciary, Local Self- Government in Bihar, District Profile of Bihar, Tourism in Bihar, Language and Literature in Bihar, Art and Crafts

Suicide and Society in India Sep 21 2019 In

India about 123,000 people take their own lives

each year, the second highest total in the world.

There is a suicide death in India almost every 4

minutes, and it is the leading cause of death for

rural Indians especially women in early

adulthood. This book presents a comprehensive

analysis of suicide in India based on original

research as well as existing studies, and looks at

the issue in an international, sociological and historical context. The author looks at the reliability of suicide data in India, and goes on to discuss various factors relating to suicide, including age, gender, education and marriage. Among its findings, the book exposes a hidden youth suicide 'crisis' in India which is argued to be far more serious than the better known crisis of farmer suicides. The book dispels many myths that are commonly associated with suicide, and highlights a neglected public health problem. Suicide in the region of Pondicherry is looked at in detail, as well as in the Indian Diaspora. This book is a useful contribution to South Asian Studies, as well as studies in Mental Health and Sociology.
