Financial Analysis, Planning & Forecasting Feb 25 2020 New Professor Cheng-Few Lee ranks #1 based on his publications in the 26 core finance journals, and #163 based on publications in the 7 leading finance journals (Source: Most Prolific Authors in the Finance Literature: 1959-2008 by Jean L Heck and Philip L Cooley (Saint Joseph's University and Trinity University)). Based on the authors' extensive teaching, research and business experiences, this book reviews, discusses and integrates both theoretical and practical aspects of financial planning and forecasting. The book is divided into six parts: Information and Methodology for Financial Analysis, Alternative Finance Theories and Their Application, Capital Budgeting and Leasing Decisions, Corporate Policies and Their Interrelationships, Short-term Financial Decisions, Financial Planning and Forecasting, and Overview. The theories used in this book are pre-Modigliani-Miller Theorem, Modigliani-Miller Theorem, Capital Asset Pricing Model and Arbitrage Pricing Theory, and Option Pricing Theory. The interrelationships among these theories are carefully analyzed. Meaningful real-world examples of using these theories are discussed step-by-step, with relevant data and methodology. Alternative planning and forecasting models are also used to show how the interdisciplinary approach is helpful in making meaningful financial management decisions.

Founder's Pocket Guide: Term Sheets and Preferred Shares Oct 27 2022 This easy to follow guide

helps startup founders understand the key moving parts of an investment term sheet, and review typical preferred share rights, preferences, and protections. Along the way, we also provide easy-to-follow examples for the most common calculations related to preferred share equity deals. Expanding on these fundraising concepts, this Founder's Pocket Guide helps startup founders learn: What a term sheet is and how to summarize the most important deal terms for your fundraising and startup building goals. How preferred stock shares differ from common shares, with review of how each key preferred share right and preference is tied to the investor's shares. Key terms and definitions associated with equity fundraising, such as pre-money valuation, founder dilution, and down round. How to decipher legalese associated with a term sheet deal, such as pro rata, fully diluted, and pari passu. The full list of the most common term sheet clauses, their plain English meaning, and their importance to an early-stage investment deal. Simple math for the key term sheet financial aspects, including calculating fully diluted shares outstanding, investor equity ownership percentages, and the impact of option pools on founder dilution. Example exit scenarios, showing how term sheet deal points impact how exit proceeds get divided among investors and founders.

Central Bank Balance Sheet and Real Business Cycles Sep 02 2020 Central Bank Balance Sheet and Real Business Cycles argues that a deeper comprehension of changes to the central bank balance sheet can lead to more effective policymaking. Any transaction engaged in by the central bank—issuing currency, conducting foreign exchange operations, investing its own funds, intervening to provide emergency liquidity assistance and carrying out monetary policy operations—influences its balance sheet. Despite this, many central banks throughout the world have largely ignored balance sheet movements, and have instead focused on implementing interest rates. In this book, Mustapha Abiodun Akinkunmi highlights the challenges and controversies faced by central banks in the past and present

when implementing policies, and analyzes the links between these policies, the central bank balance sheet, and the consequences to economies as a whole. He argues that the composition and evolution of the central bank balance sheet provides a valuable basis for understanding the needs of an economy, and is an important tool in developing strategies that would most effectively achieve policy goals. This book is an important resource for anyone interested in monetary policy or whose work is affected by the actions of the policies of central banks.
