**Relational Christianity** Apr 30 2020 This work begins with a transformative idea: human existence is fundamentally relational. Relational Christianity explores how the nature of the Trinity must define the Church and the Christian spiritual life. Utilizing Scripture, Christian spiritual tradition, and philosophy, Pinkham and Gruenberg paint the picture of a Trinitarian, Jesus-centered Christianity, led by the Father and explored in

interpersonal oneness. In this view, God's intimate, unifying love is the theological river that runs through the landscape of biblical revelation and through God's movement in history. This work of Trinitarian practical theology suggests that the relation between Father, Son, and Spirit should shape and guide all Christian interactions—with God, with others, and with self. In the paradigm of relational Christianity, the formation of genuine personhood and identity are based upon relational connections—first with the Trinity, and second with God's family. The shape of the new covenant community must reflect the Father's nature. Church culture must prioritize relationship in the same way the Trinity does.

**Loose Leaf for The Art of Leadership** Jun 13 2021 The Art of Leadership, 6th edition, is based on two ideas: 1. Leadership will take place to the extent the leader cares about the work to be done. Equally important, the leader must care about people. Neither of these qualities is sufficient without the other, and neither can be false. People know when the leader cares. When the leader is committed to the task and is concerned about people, these qualities serve as magnets and motivators to followers, and their potential for achievement becomes enormous. 2. Leadership is an art that can be developed through mastery of nine key areas of success. The successful leader must possess knowledge and skills in the following areas: understanding leadership variables, the power of vision, the importance of ethics, the empowerment of people, leadership principles, understanding people, multiplying effectiveness, developing others, and performance management. The difference between most other leadership texts and the Art of Leadership, 6th edition, can be compared to the difference between a lecture and seminar. Although both are good educational vehicles, the lecture is better for conveying large amounts of information, while the seminar is better for developing skills and attitudes. A good lecture is interesting and

builds knowledge, while a good seminar is stimulating and builds competency. Without sacrificing either theoretical foundation or important content, the 6th edition of *The Art of Leadership* emphasizes the interactive, seminar approach to learning.

The New Believer's Guide to the Christian Life Aug 15 2021

What Life as a Christian Really Looks Like New believers need to know what to expect. While many books cover the nuts and bolts of new faith--how to read the Bible, how to pray, how to find a church--in this book, Alex Early focuses on issues of the heart. What are Christians supposed to feel? What happens when they sin? What does God want from them? Designed to challenge and reassure, this book gives a realistic depiction of the Christian life, and includes such topics as how to rest in God's love, what forgiveness looks like when you blow it, what it means to find your identity in Christ, and how to pray with honesty and transparency. God isn't surprised when we struggle, and although being in a relationship with God is amazing, he never promised that this life would be easy. He can handle "real" people, and he pours out his reckless love regardless of what we do or think on any given day. We all need to be reminded of this, but especially those new to the faith. This book is ideal for new believers, but seasoned Christians should also have copies on hand to give away. Includes end-of-chapter questions and a "Christianese to English" glossary.

A Practical Guide to Ethics Feb 21 2022 This essential new text

is designed for courses in contemporary moral issues, applied ethics, and leadership. Emphasizing personal choice in the study of ethics, the authors take the reader on a journey of self-discovery rather than a mere academic survey of the field of ethics. *A Practical Guide to Ethics: Living and Leading with Integrity* helps students develop their skills in ethical decision-making and put those decisions into effective practice. Its unique focus on leadership, especially the moral dimensions of understanding one's own values, teaches students to understand and, through dialog and negotiation, communicate their own beliefs as a step to building coalitions with those who may hold different views. It is also distinctive in combining ethical theory with both multicultural ethics (Confucianism, Hinduism, Islam, feminism) and a practical orientation to moral decision-making and leadership.
