On the surface, Annie Powers’s life in a wealthy Floridian suburb is happy and idyllic. Her husband, Gray, loves her fiercely; together, they dote on their beautiful young daughter, Victory. But the bubble surrounding Annie is pricked when she senses that the demons of her past have resurfaced and, to her horror, are now creeping up on her. Mona Lisa Jun 30 2020 "A genius immortalized her. A French king paid a fortune for her. An emperor coveted her. No face has ever captivated so many for so long. Every year more than nine million visitors trek to her portrait in the Louvre. Yet while everyone recognizes her smile, hardly anyone knows her story. This book rests on the premise that the woman in the *Mona Lisa* is indeed the person identified in its earliest description: Lisa Gherardini (1479-1542), wife of the Florence merchant Francesco del Giocondo. Dianne Hales has followed facts wherever she could find them -- from the Florence State Archives, to the squalid street where she was born, to the ruins of the convent where she died. Lisa Gherardini was a quintessential woman of her times, caught in a whirl of political upheavals, family dramas, and public scandals. Descended from ancient nobles, she gave birth to six children and died at age sixty-three. Her life spanned the most tumultuous chapters in the history of Florence, decades of war, rebellion, invasion, siege, and conquest--and of the greatest artistic outpouring the world has ever seen. Her story creates an extraordinary tapestry of Renaissance Florence, inhabited by larger-than-legend figures such as Leonardo, Michelangelo, and Machiavelli. *Mona Lisa: A Life Discovered* takes readers beyond the frame of Leonardo's masterpiece and introduces them to a fully dimensional human being"--

Washed in the Blood Sep 26 2022 This unique three-part novel assumes that, regardless of what Americans learn in school, the Southeast was not a barren wilderness when the English arrived at Jamestown. It was full of Native Americans and of other Europeans who were there for various reasons. Based on extensive research into the racial mixing that occurred in the early years of southeastern settlement, this provocative multi-generation story shows that people did not simply vanish, but that many were absorbed into the new communities that gradually formed throughout the southeast, becoming "white" whenever their complexions allowed. The inability to accept their true heritages illustrates the high price many of these people paid for their way of life. Diego Martin arrives in 1567 in the American Southeast; the region the Spaniards call La Florida; as a hog drover with a Spanish exploring party. The leader of the expedition turns against him and abandons him to the wilderness, where friendly natives rescue him. Daniel Hunter, a Quaker from Philadelphia, sets up a school among these "disadvantaged" mountain people and falls in love with a Martin daughter. Later, Daniel's descendants are living in the same town, though with little awareness of their ancestral past. The Martin family has split in two, the merchants in town denying any relationship to their racially mixed cousins on Mulatto Bald. A young woman from town, Galicia, falls in love with a young man from the bald, Will, not realizing that he is her cousin. They marry, have a daughter, and move to a new industrial center, becoming prominent citizens. When Will's son from a teenage liaison appears at his door, he invites him in, unwittingly setting the stage for a forbidden love between his unacknowledged son and his cherished daughter, neither of whom realizes that they are half-siblings. This is a novel you will not be able to put down without thinking and wondering "where will it take me next."
