*The Muslim Jesus* Aug 27 2022 This work presents in English translation the largest collection ever assembled of the sayings and stories of Jesus

in Arabic Islamic literature. In doing so, it traces a tradition of love and reverence for Jesus that has characterized Islamic thought for more than a thousand years. An invaluable resource for the history of religions, the collection documents how one culture, that of Islam, assimilated the towering religious figure of another, that of Christianity. As such, it is a work of great significance for the understanding of both, and of profound implications for modern-day intersectorian relations and ecumenical dialogue. Tarif Khalidi's introduction and commentaries place the sayings and stories in their historical context, showing how and why this "gospel" arose and the function it served within Muslim devotion. The Jesus that emerges here is a compelling figure of deep and life-giving

spirituality. The sayings and stories, some 300 in number and arranged in chronological order, show us how the image of this Jesus evolved throughout a millennium of Islamic history.

**The Book of the Jihad of 'Ali ibn Tahir al-Sulami (d. 1106)** Nov 18 2021 In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled *Kitab al-Jihad* (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work.

**Muslim and Christian Understanding** Dec 07 2020 This book explores "A Common Word Between Us and You," a high-level ongoing Christian-Muslim dialogue process. The Common Word process was commenced by leading Islamic scholars and intellectuals as outreach in response to the Pope's much criticized Regensburg address of 2007, and brings to the

fore, in the interest of developing a meaningful peace, how the Islamic and Christian communities representing well over half of the world's population might agree on love of God and love of neighbor as common beliefs.

Contemporary Muslim Apocalyptic Literature May 24 2022 Although apocalyptic visions and predictions have long been part of classical and contemporary Islam, this book is the first scholarly work to cover this disparate but influential body of writing. David Cook puts the literature in context by examining not only the ideological concerns prompting apocalyptic material but its interconnection with the Palestinian-Israeli conflict, Arab relations with the United States and other Western nations, and the role of violence in the Middle East. Cook suggests that Islam began as an apocalyptic movement and has retained a strong apocalyptic and messianic trend. One of his most striking discoveries is the influence of non-Islamic sources on contemporary Muslim apocalyptic beliefs. He trenchantly discusses the influence of non-Islamic sources on contemporary Muslim apocalyptic writing, tracing anti-Semitic strains in Islamist thought in part to Western texts and traditions. Through a meticulous reading of current documents,

incorporating everything from exegesis of holy texts to supernatural phenomena, Cook shows how radical Muslims, including members of al-Qa'ida, may have applied these ideas to their own agendas. By exposing the undergrowth of popular beliefs contributing to religion-driven terrorism, this book casts new light on today's political conflicts.

Muslim Women in the United Kingdom and Beyond Jan 28 2020 The book explores ways in which Muslim women are portrayed, alongside their experiences of being Muslim and part of a predominantly western culture. It engages with Muslim women living predominantly in the United Kingdom, with contributions from other countries such as Australia, America and Sweden. Religious prejudice is a major theme that permeates the book, providing empirical evidence of ways in which islamophobia and visible symbols, such as the hijab, influence life experiences and perceptions of Muslim women negatively. Accounts of the impact of discrimination on life chances and opportunities are vivid. The book recounts ways in which the women cope in challenging

diasporic contexts and concludes with recommendations for positive change. The text will be particularly valuable to anyone interested in issues of gender, religion and ethnicity, including students, employers, politicians and professionals.

**Understanding the Koran** Jul 26 2022 What You Should Know about Islam's Holy Book How is it like the Bible? How is it different? Why is it important? Muslims believe the Koran exists as a literal book in heaven and was dictated to the prophet Muhammad by the angel Gabriel. It is only the length of the New Testament, yet a fifth of the world claims it is the complete revelation of God. To most Americans, though, the Koran remains a mystery. Did you know that the Koran teaches the virgin birth and miracle-filled, prophetic ministry of Jesus? Claims to fully embrace his teachings? Reverses Abraham, Moses, Jonah, and other biblical prophets? Find out how the Koran resembles the Bible—and the drastic ways in which it differs. Understanding the Koran gives you a fascinating essential grasp of Islam's holy book: where it came from, what it teaches, how Muslims view it, and how the Allah of the Koran compares with the God of the Bible. Cherished as the final, perfect revelation of God's will by 1.2 billion Muslims worldwide, the Koran has become a part of American life. Today, those who read and memorize it may work in your town, shop where you shop, or send their children to the same school your kids attend. What do you know about the holy book that shapes the lives and eternal destinies of your neighbors and a fifth of the world's population? While some similarities exist between the Koran and the Bible, the differences are striking. Written by a pastor who was born to a Muslim father and raised in Saudi Arabia, Understanding the Koran gives you a fascinating, easy-to-understand overview that will show you: •Why the background behind the Koran is important •How the Koran came into existence •A summary of the main teachings of the Koran, including what it says about Jesus and the crucifixion •Similarities and differences between Muslim and Christian views of God •What the Koran teaches

about Jihad and holy war •What the Koran teaches about heaven and hell More than furnishing you with an essential grasp of Islam’s holy book, Understanding the Koran points you to the one thing that can draw your Muslim friends to Jesus—his love, demonstrated to them through you.

**The War on the Uyghurs** Apr 11 2021 How China is using the US-led war on terror to erase the cultural identity of its Muslim minority in the Xinjiang region Within weeks of the September 11 attacks on New York and Washington, the Chinese government warned that it faced a serious terrorist threat from its Uyghur ethnic minority, who are largely Muslim. In this explosive book, Sean Roberts reveals how China has been using the US-led global war on terror as international cover for its increasingly brutal suppression of the Uyghurs, and how the war's targeting of an undefined enemy has emboldened states around the globe to persecute ethnic minorities and severely repress domestic opposition in the name of combatting terrorism. Of the eleven million Uyghurs living in China today, more than one million are now being held in so-called reeducation camps, victims of what has become the largest program of mass detention and surveillance in the world. Roberts describes how the Chinese government successfully implicated the Uyghurs in the global terror war—despite a complete lack of evidence—and branded them as a dangerous terrorist threat with links to al-Qaeda. He argues that the reframing of Uyghur domestic dissent as international terrorism provided justification and inspiration for a systematic campaign to erase Uyghur identity, and that a nominal Uyghur militant threat only emerged after more than a decade of Chinese suppression in the name of counterterrorism—which has served to justify further state repression. A gripping and moving account of the humanitarian catastrophe that China does not want you to know about, *The War on the Uyghurs* draws on Roberts's own in-depth interviews with the Uyghurs, enabling their voices to be heard.

In a series of personal letters to his son, Omar Saif Ghobash offers a short and highly readable manifesto that tackles our current global crisis with the training of an experienced diplomat and the personal responsibility of a father. Today's young Muslims will be tomorrow's leaders, and yet too many are vulnerable to extremist propaganda that seems omnipresent in our technological age. The burning question, Ghobash argues, is how moderate Muslims can unite to find a voice that is true to Islam while actively and productively engaging in the modern world. What does it mean to be a good Muslim? What is the concept of a good life? And is it acceptable to stand up and openly condemn those who take the Islamic faith and twist it to suit their own misguided political agendas? In taking a hard look at these seemingly simple questions, Ghobash encourages his

son to face issues others insist are not relevant, not applicable, or may even be Islamophobic. These letters serve as a clear-eyed inspiration for the next generation of Muslims to understand how to be faithful to their religion and still navigate through the complexities of today's world. They also reveal an intimate glimpse into a world many are unfamiliar with and offer to provide an understanding of the everyday struggles Muslims face around the globe.

**Muslim Communities Reemerge** Mar 10 2021 The terrible events afflicting Muslims in Bosnia-Herzegovina and Tajikistan fill the news, commanding the world's attention. This timely volume offers rare insight into the background of these catastrophic conflicts. First published in German on the eve of the breakup of the Yugoslav and Soviet republics, it is one of the few books in any language to analyze, in detail and in depth, the historical and contemporary situation of Muslims in former communist states and thus clarifies the sources, development, and implications of the events that dominate today's foreign news. In fourteen chapters and an updated introduction, European and North American specialists examine the recent evolution of Islamic expression and practice in these former Communist regions, as well as its political significance within officially atheistic regimes. Representing a wide range of disciplines and perspectives, the authors detail how the modern ethno-religious situation developed and matured in hostile circumstances, the degree of latitude the local Muslims achieved in religious expression, and what prospect the future seemed to offer just before the breakup of the Soviet Union and the Federal Republic of Yugoslavia. Overall, the book provides a thorough analysis of the coincidence and tension between ethnic and religious identity in two countries officially devoted to the separation of ethnic groups in domestic cultural arrangements but not in the social or political realm.
