Hybrid Humans Aug 06 2020 As heard on BBC Radio 4 Book of the Week As seen on Sky Arts Book Club with Elizabeth Day and Andi Oliver An eye-opening account of disability, identity and how robotics and AI are altering our understanding of what it means to be human - from the bestselling author of *Anatomy of a Soldier* Harry Parker's life changed overnight when he lost his legs to an IED in Afghanistan. His rehabilitation took him into an often surprising landscape of a very human kind of hacking, and he wondered - are all humans becoming hybrids? Whether it's putting on contact lenses every day or DIY biohackers tinkering in garages, Parker introduces us to the exhilarating breadth of human invention - and intervention. Grappling with his own new identity and disability, he discovers the latest robotics, tech and implants that might lead us to powerful, liberating possibilities for what a body can be. "I loved Hybrid Humans. It is modest, wise ... and a way of looking at the future without nostalgia for the past" - Jeanette Winterson "This may be a tour of the scientific avant garde, but the focus is always on the human heart and mind" - Observer, Book of the Day "Harry Parker has explored the cutting edge of interaction between humanity, computing and AI ... a captivating and cautionary travel guide to a new world" - Gavin Francis, author of *Adventures in Human Being*

Darling Venom Apr 01 2020 From Wall Street Journal bestseller Parker S. Huntington comes a broken love story laced with angst and forbidden romance. I wasn't supposed to be on that roof on Valentine's Day. Neither was Kellan Marchetti, the school's designated freak. We met on the verge of ending our lives. Somehow, the tattered strings of our tragedies tangled and tightened into an unlikely bond. We decided not to take the plunge and agreed to check on each other every Valentine's Day until school ended. Same time. One roof. Two restless souls. We kept our promise for three years. On the fourth, Kellan made a decision, and I was left to deal with the consequences. Just when I thought our story ended, another one began. They say all love stories look the same and taste different. Mine was venomous, disgraceful, and written in scarlet scars. My name is Charlotte Richards, but you can call me Venom.
