The Church of England 1688-1832 Nov 22 2021 A wide ranging new history of a key period in the history of the church in England, from the 'Glorious Revolution' of 1688-89 to the Great Reform Act of 1832. This was a tumultuous time for both church and state, when the relationship between religion and politics was at its most fraught. This book presents evidence of the widespread Anglican commitment to harmony between those of differing religious views and suggests that High and Low Churchmanship was less divergent than usually assumed.

International Monetary Cooperation Jul 19 2021 In September 1985, emissaries of the world's five leading industrial nations—the United States, Britain, France, Germany, and Japan—secretly gathered at the Plaza Hotel in New York City and unveiled an unprecedented effort to correct the largest set of current account and exchange rate imbalances that had ever threatened the world economy. The Plaza Accord is credited with sharply realigning exchange rates, significantly reducing current account imbalances, and countering protectionist pressures in the United States. But did the Accord provide a foundation for ongoing international financial stability and policy coordination? Or was it simply a unique one-time coincidence of national interests? The Plaza experience continues to inform today's debates about the limits and possibilities of international monetary cooperation. In late 2015, leading policymakers and economists—including those who were involved in the Accord's design, negotiation, and implementation—held a Plaza Retrospective conference at the Baker Institute for Public Policy to evaluate the Accord's legacy and how its collaborative spirit can be applied today. This volume presents their

views and analyses to provide guidance for a time when the world again faces the prospect of currency disequilibria, growing imbalances, trade policy reactions, and thus uncertainty for both the global economy and world politics.

An Honorable Accord Sep 20 2021 In 1975, after three centuries of colonial rule, the people of the Northern Marianas exercised their right of self-determination to become U.S. citizens in a self-governing commonwealth under U.S. sovereignty. An Honorable Accord is the remarkable account of their tenacious efforts to shape a political future separate from other Micronesian peoples, of the negotiations that produced the Covenant defining the commonwealth relationship, and its eventual approval by the Northern Marianas people and the U.S. Congress.

The Storyworld Accord May 17 2021 "Storyworlds," mental models of context and environment within which characters function, is a concept used to describe what happens in narrative. Narratologists agree that the concept of storyworlds best captures the ecology of narrative interpretation by allowing a fuller appreciation of the organization of both space and time, by recognizing reading as a process that encourages readers to compare the world of a text to other possible worlds, and by highlighting the power of narrative to immerse readers in new and unfamiliar environments. Focusing on the work of writers from Trinidad and Nigeria, such as Sam Selvon and Ben Okri, *The Storyworld Accord* investigates and compares the storyworlds of nonrealist and postmodern postcolonial texts to show how such narratives grapple with the often-collapsed concerns of subjectivity, representation, and environment, bringing together these narratological and ecocritical concerns via a mode that Erin James calls econarratology. Arguing that postcolonial ecocriticism, like ecocritical studies, has tended to neglect imaginative representations of the environment in postcolonial literatures, James suggests that readings of storyworlds in postcolonial texts helps narrative theorists and ecocritics better consider the ways in which culture, ideologies, and social and environmental issues are articulated in narrative forms and structures, while also helping postcolonial scholars more fully consider the environment alongside issues of political subjectivity and sovereignty.

Honda Engine Swaps Nov 03 2022 When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping.

Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

After the Peace Oct 22 2021 The 1998 Belfast Agreement promised to release citizens of Northern Ireland from the grip of paramilitarism. However, almost a decade later, Loyalist paramilitaries were still on the battlefield. *After the Peace* examines the delayed business of Loyalist demilitarization and explains why it included more fits than starts in the decade since formal peace and how Loyalist paramilitary recalcitrance has affected everyday Loyalists. Drawing on interviews with current and former Loyalist paramilitary men, community workers, and government officials, Carolyn Gallaher charts the trenchant divisions that emerged during the run-up to peace and thwart demilitarization today. *After the Peace* demonstrates that some Loyalist paramilitary men want to rebuild their communities and join the political process. They pledge a break with violence and the criminality that sustained their struggle. Others vow not to surrender and refuse to set aside their guns. These units operate under a Loyalist banner but increasingly resemble criminal fiefdoms. In the wake of this internecine power struggle, demilitarization has all but stalled. Gallaher documents the battle for the heart of Loyalism in varied settings, from the attempt to define Ulster Scots as a language to deadly feuds between UVF, UDA, and LVF contingents. *After the Peace* brings the story of Loyalist paramilitaries up to date and sheds light on the residual violence that persists in the post-agreement era.

Labor, Global Supply Chains and the Garment Industry in South Asia Feb 11 2021 This book argues that larger flaws in the global supply chain must first be addressed to change the way business is conducted to prevent factory owners from taking deadly risks to meet clients' demands in the garment industry in Bangladesh. Using the 2013 Rana Plaza disaster as a departure point, and to prevent such tragedies from occurring in the future, this book presents an interdisciplinary analysis to address the disaster which resulted in a radical change in the functioning of the garment industry. The chapters present innovative ways of thinking about solutions that go beyond third-party monitoring. They open up possibilities for a renewed engagement of international brands and buyers within the garment sector, a focus on direct worker empowerment using technology, the role of community-based movements, developing a model of change through enforceable contracts combined with workers movements, and a more productive and influential role for both factory owners and the government. This book makes key interventions and rethinks the approaches that have been taken until now and proposes suggestions for the way forward. It engages with international brands, the private sector, and civil society to strategize about the future of the industry and for those who depend on it for their livelihood. A much-needed review and evaluation of the many initiatives that have been set up in Bangladesh in the wake of Rana Plaza, this book is a valuable addition to academics in the fields of development studies, gender and women's studies, human rights, poverty and practice, political science, economics, sociology, anthropology, and South Asian studies.

Monthly Labor Review Jan 01 2020 Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

The Limits of Regionalism May 29 2022 Assessing the effectiveness of the North American Agreement on Labour Cooperation (NAALC), this book examines the operation of the core institutions (the Secretariat and National Administrative Offices) over the past seven years. It discusses the main functions of these institutions in hearing public submissions on violations of labour laws and in conducting research and cooperative activities. Based on interview research, the analysis reviews the strengths and weaknesses of the accord to assess its contribution to a common labour relations regime in North America and its impact in creating new transnational communities of actors in government and civil society in the three countries. The NAALC is also compared with the social dimension of the European Union system, and a final assessment is made as to whether the NAALC institutions live up to the promises of their founders and whether these can be a model for labour relations in any future Free Trade Area of the Americas (FTAA) agreement.

Macedonia and Identity Politics After the Prespa Agreement Jul 07 2020 This book explores issues of national identity, history, and language in light of the 2018 Prespa Agreement. Designed to resolve a protracted and bitter dispute, the agreement signed by the Macedonian and Greek foreign ministers on the banks of the Prespa lake stipulated that the Republic of Macedonia change its name to the Republic of North Macedonia. The chapters examine the social, political, and economic conditions and events that led to the agreement and the implications and consequences for identity politics in the region. Consideration is given to the ways in which, and the reasons why, identity/identities, difference/differences, modes of belonging, and experiences of injustice and discrimination have been mobilized. By focusing on the Prespa Agreement, the collection also offers valuable insight into the processes involved in (re)making boundaries, (re)defining ethnic and national identities, (re)inventing citizenship, and (re)writing national histories. Bringing together expert contributors with intimate knowledge of, and long-term engagement with, the region, this volume will be of interest to scholars and students of anthropology, Slavic and East European studies, history, and international relations.
