“HOME SCIENCE SKILLS IN INDUSTRIAL ENTREPRENEURSHIP FOR UPLIFTMENT OF LIFE” Jan 06 2020 INTRODUCTION - The reflection of Home science textbook to ancient days when special education on all aspects of life was given to girls for managing harmonious home and family life till formal education for girls in this direction was introduced by Madras mission school in 1915. The girls were educated on aspects like taking good care of children, supplying nutritious food to family, building health of family and managing their homes. This was the initiation of the concept of Home science through the education was not formally named as home science. Efforts were continue to make this education meaningful and suitable to life of a girls who got married in her early teens. Later early 90s witness the boost of special education for girls called home science education. The stepping stone in this direction was introduction of Home science subject in 1927 by educational planner at All India women's conference. The society recognise this education as a symbol of high status and the parents got encouraged to send their daughters for home science education. This was further supported by National Freedom Movement in thirties and forties of 19th century when equality of women was sought in all aspects of their expanded role in home and development of the nation. Even Sargent committee in 1944 highly acknowledge the importance of Home science as subject in schools for girls.

Entrepreneurship Development in India Aug 25 2021 Entrepreneurship development is a major area of focus today as it has huge potential in creating jobs and self-employability and thus contributing to economic development. India, in the last few years in particular, has seen exponential growth of start-ups and new-age entrepreneurs. Both the Central and State Governments have been taking proactive steps towards the development of entrepreneurship in the country. The Government has launched various schemes and programmes to attract investors and create a healthy ecosystem for entrepreneurship. India is one of the largest homes of start-ups in the world and has been highly successful in bringing significant amounts of Foreign Direct Investment (FDI). Moreover, the Government is taking active steps in removal of the bureaucratic hurdles and bottlenecks, so that entrepreneurship development is encouraged. In order to promote the culture of entrepreneurship development, the subject has been made part of the

curriculum at both undergraduate and postgraduate levels across disciplines. This book is a sincere attempt to build the fundamentals of the subject amongst students alongside motivating them to become future entrepreneurs. It will be of interest to researchers, academics, and students in the fields of business administration, management, and entrepreneurship.

PROJECT APPRAISAL AND FINANCING Nov 27 2021 The era of nineties has created a new breed of entrepreneurs whose quest for finance is unending. The lending institutions, on the other hand, have become choosy due to, among other reasons, mounting Non-performing Assets (NPAs). All this has led to increased pressure on the availability of finance to the entrepreneurs. In this setting, careful consideration of Project Appraisal and Financing holds the key to survival. Designed in this context, the book begins with explaining the project's fundamentals—features, identification, and project life cycle. It goes on to explain and analyze project formulation, appraisal of promoters and management, market appraisal, technical appraisal, financial appraisal, project report, institutional risk assessment and financing decision. The book also focuses on the concepts of project management, overruns, post-completion performance evaluation and contemporary issues like infrastructural financing, and environmental impact assessment. All through the book, the emphasis is on critical analysis and decision-making. Primarily intended for the students of MBA/PGDM/PGDBM and other allied

courses such as MFC and MBE, the book will also be of immense value to the students of CA, CWA, CS, CFA, CPA and CAIIB. Besides, it will be equally beneficial for the executive development and in-company training programmes on project appraisal and financing. Project finance executives in consulting firms and lending institutions and banks will also be benefited from the book due to its practical orientation. **KEY FEATURES** • Highlights the text from practitioner's perspective. • Written in a lecture mode and conversational style; classroom simulative. • Large number of illustrations, exercises and case studies. • Systematic and organized coverage of a full-fledged manufacturing project, including 10 years' financial projections integrated with the text throughout the book. Contemporary issues like infrastructure financing and environmental impact assessment. Unique pedagogical features, as explained in the 'Visual Tour of the Book' section. Chapter-wise PPTs and Solutions Manual available, on demand, for instructors adopting the book.

Project Cost Recording and Reporting Nov 08 2022 Communication is a vital part of project management, and reports are one of the preferred vehicles for transmitting information to an intended internal or external audience. Reports are also part of the system of control and governance on projects, used to bring attention to issues and prompt action to improve project outcomes. There are countless ways of combining project information for consumption by stakeholders. This book discusses the purpose of project reports, and provides examples of the format, content, timing, and audience for various types. Using principles of stakeholders and risk management, it presents a rationale for communication plans, enabling appropriate reporting at the project, program, and portfolio level. The author also: Presents tangible experience and suggestions for developing project reports. Discusses project reports in context, as applicable to types of stakeholders and the project lifecycle. Identifies sources and types of data required for adequate reporting. Offers examples of report formats, graphics, and content. Reflects on typical challenges encountered with project reporting. It is essential reading for practitioners and students of project management, cost control, and accountancy.

ENGLISH LANGUAGE LABORATORIES Feb 28 2022 Today, acquiring English language skills has become so essential, especially for those who are looking for new jobs in reputed organizations as well as for the practising professionals. Many engineering students, even though they have adequate knowledge of their subject, are unable to express themselves well in English. Taking this into account, engineering colleges/institutes have introduced exclusive English Language Laboratories where students are drilled in the practical aspects of the English language. This compact and comprehensive book is a step-by-step practical guide to students, telling them how to prepare technical reports and how to acquire the basic communication skills—listening, speaking, reading and writing. The book deals with conversation, situational dialogues and role plays, and Group Discussions (GDs). It also gives detailed discussion about Interviews—step-by-step preparation, practical and psychological preparation, the dos and don'ts for interview—besides dealing with different kinds of interviews: telephonic, videoconferencing, and others. In addition, the text stresses the importance of researching the organization, and salary negotiations. Finally, the book shows the students how to make powerpoint presentations (PPTs), the structure of presentation and using audio visuals. This activity based, skill-oriented, learner centred book is designed according to the WBUT syllabus on Technical Report Writing and Language Laboratory Practice for the B.Tech. students. However, it would be equally useful for B.Tech./B.E. students across the country. **DISTINGUISHING FEATURES** : A practical and student friendly text, the stress being on the functional aspects of the language and various activities for acquiring the language. Gives the Methodology of conducting activities such as GDs, Interviews and Presentation. Provides model GD topics and the step-by-step process of making PPTs. Clearly spells out all the details, right from preparing a good job application, researching the company (including its financial health), to preparing the job portfolio, to wearing the proper dress, handling questions, and negotiating salary. Provides an extensive list of probable questions along with their answers to prepare students for mock interviews. Also gives well-crafted questions at the end of each lesson.

Project Management Accounting Dec 05 2019 Over the past few decades, Project Management has shifted from its roots in construction and defense into mainstream American business. However, many project managers' areas of expertise lie outside the perimeters of business, and most do not have the formal education in business, accounting, or finance required to take their skills to the next level. In order to succeed, today's project managers (PMs) who wish to soar to the top or remain at the helm of their profession need to have a comprehensive grasp of the business context within which they work. Providing a resourceful introduction to the interrelationships between finance, accounting, and Project Management, Project Management Accounting, Second Edition is designed to help PMs at various skill levels improve their business skills, provide advanced contributions to their organizations, and perform with greater proficiency. Authors and industry experts Kevin Callahan, Gary Stetz, and Lynne Brooks combine their decades of Project Management experience and insights to provide professionals in the field with a 360-degree understanding of how costs interact with the general ledger. Through the authors' seasoned expertise, PMs are better equipped to assess all facets of a project with a broader understanding of the "big picture" to determine whether to continue as planned, find an alternative solution, or scrap the project altogether. Rich with new content as well as many new case studies, this Second Edition of Project Management Accounting includes: Updated information on Project Management and its link to Project Accounting A new chapter on assessing risk when managing projects How to determine the greatest tax/cost savings Project Management in relation to a company's mission, objectives, and strategy Project Management in an agile business Coverage of agile Project Management as applied to software and technical projects New, updated, and timely case studies Sample checklists to help readers get started and apply concepts to their business Project managers must make vital decisions every day that impact the schedule, costs, or resources committed to a given project. Project Management Accounting, Second Edition, provides the tools and skills to help PMs establish with greater certainty whether these costs should be capitalized or expensed to stay on budget and improve a company's bottom line.

Profitable Small, Cottage & Home Industries Feb 16 2021 The small scale sector is assuming greater importance every day. Hundreds of thousands of people start their own businesses at home every year, and untold more dream about the possibility of becoming their own bosses. Starting a business at home is the best when you do not have enough funds. While entrepreneurship has its many potential rewards, it also carries unique challenges. Making a choice of the right project is a difficult decision for an entrepreneur and is an imperative decision. In fact, before starting a business also one has to be thorough with the requirements of current line of industry. Above all taking advantage of various schemes provided by government and other financial institutions. For the reason that rest of the challenges for setting up, a business is based on the type of the product and fund to invest. Entrepreneurship helps in the development of nation. A successful entrepreneur not only creates employment for himself but for hundreds. Deciding on a right project can lead you to the road to success. An entrepreneur requires a continuous flow of funds not only for setting up of his/ her business, but also for successful operation as well as regular up gradation/ modernization of the industrial unit. To meet this requirement, the Government (both at the Central and State level) has been undertaking several steps like setting up of banks and financial institutions; formulating various policies and schemes, etc. All such measures are specifically focused towards the promotion and development of small and medium enterprises.
