[Web of Lies](#) Nov 16 2021 Curiosity is definitely going to get me dead one of these days. Probably real soon. I'm Gin Blanco. You might know me as the Spider, the most feared assassin in the South. I'm retired now, but trouble still has a way of finding me. Like the other day when two punks tried to rob my popular barbecue joint, the Pork Pit. Then there was the barrage of gunfire on the restaurant. Only, for once, those kill shots weren't aimed at me. They were meant for Violet Fox. Ever since I agreed to help Violet and her grandfather protect their property from an evil coalmining tycoon, I'm beginning to wonder if I'm really retired. So is Detective Donovan Caine. The only honest cop in Ashland is having a real hard time reconciling his attraction to me with his Boy Scout mentality. And I can barely keep my hands off his sexy body. What can I say? I'm a Stone elemental with a little Ice magic thrown in, but my heart isn't made of solid rock. Luckily, Gin Blanco always gets her man . . . dead or alive.

What is Web 2.0 Oct 15 2021 The concept of "Web 2.0" began with a conference brainstorming session between O'Reilly and MediaLive International. Dale Dougherty, web pioneer and O'Reilly VP, noted that far from having "crashed", the web was more important than ever, with exciting new applications and sites popping up with surprising regularity. What's more, the companies that had survived the collapse seemed to have some things in common. Could it be that the dot-com collapse marked some kind of turning point for the web, such that a call to action such as "Web 2.0" might make sense? We agreed that it did, and so the Web 2.0 Conference was born. In the year and a half since, the term "Web 2.0" has clearly taken hold, with more than 9.5 million citations in Google. But there's still a huge amount of disagreement about just what Web 2.0 means, with some people decrying it as a meaningless marketing buzzword, and others accepting it as the new conventional wisdom. This article is an attempt to clarify just what we mean by Web 2.0.
