the real world. Advertisements include sale flyers for four different stores: Winston Supply Depot, East Valley Drugstore, Nature's Best Farmer's Market, Hansen's Sport Shop Questions Students are asked to use the four colorful pages for each sale flyer to find the information they need in order to solve the math word problems. When solving a problem, students may need to use the answer from another problem on the same page. Problems progress in difficulty as students work through the questions for each menu. The first activity page introduces students to the contents of the sale flyer by asking comprehension

questions. Answering these questions will familiarize students with the information they will need to solve the word problems Skills A wide range of math skills is covered in this program. Students will solve word problems that involve addition, subtraction, multiplication, and division as well as money, time, measurement, percents, decimals, and fractions. Some of the word problems are simple, one-step problems while others involve multiple steps that require students to really think about the problem. Each activity page lists the math skills covered at the top of the page. Details Total of 90 Pages Includes: •16 Full-Color

demonstration of mathematical basic concepts through extensive use of business examples taken from real-world applications in such areas as banking, the hotel/motel industry, retail, and real estate. Strengthening and refining coverage throughout, it encompasses all areas of business mathematics beginning with skill-building sections on whole numbers and

decimals; guiding students through fractions, percents, statistics, and equations; then easing them into the specifics of business-related mathematics applications with discussions on payroll, discounts, markup/markdown, interest, credit and more. Direct, friendly, and visually appealing, it keeps both the teacher and students in mind at all times, offering an adaptable self-instructional or teacher-

directed format, and myriad motivational tools to stimulate interest and deepen understanding. Perfect for instructors who want to incorporate the teaching of AMATYC and NCTM standards numerous pedagogical features correlate specifically to these standards.
