[How to Define and Build an Effective Cyber Threat Intelligence Capability](#) Aug 06 2020 Intelligence-Led Security: How to Understand, Justify and Implement a New Approach to Security is a concise review of the concept of Intelligence-Led Security. Protecting a business, including its information and intellectual property, physical infrastructure, employees, and reputation, has become increasingly difficult. Online threats come from all sides: internal leaks and external adversaries; domestic hackers and overseas cybercrime syndicates; targeted threats and mass attacks. And these threats run the gamut from targeted to indiscriminate to entirely accidental. Among thought leaders and advanced organizations, the consensus is now clear. Defensive security measures: antivirus software, firewalls, and other technical controls and post-attack mitigation strategies are no longer sufficient. To adequately protect company assets and ensure business continuity, organizations must be more proactive. Increasingly, this proactive stance is being summarized by the phrase Intelligence-Led Security: the use of data to gain insight into what can happen, who is likely to be involved, how they are likely to attack and, if possible, to predict when attacks are likely to come. In this book, the authors review the current threat-scape and why it requires this new approach, offer a clarifying definition of what Cyber Threat Intelligence is, describe how to communicate its value to business, and lay out concrete steps toward implementing Intelligence-Led Security. Learn how to create a proactive strategy for digital security Use data analysis and threat forecasting to predict and prevent attacks before they start Understand the fundamentals of today's threatscape and how best to organize your defenses

How To Set Up An Information Platform For Migrants Aug 18 2021 Transnational multilingual information platform Danube Compass, part of the DRIM project (Danube Region Information Platform for Economic Integration of Migrants) financed by the European Union's Danube Transnational Programme, was created with the aim to improve access to information for migrants in eight countries along the Danube river. What we have learned in the process is what this handbook is all about. Its aim is to support the creation of similar platforms in other regions and is intended for organizations and institutions involved in the integration of newly arrived migrants. It should be helpful for anyone who is thinking of gathering focused information about arriving, working and living in another country. It provides hands-on checklists and ideas about how to implement one's own platform for supporting migrants' integration on local or national level. / Transnacionalna informacijska platforma Danube Compass, del projekta DRIM (Danube Region Information Platform for Economic Integration of Migrants), ki je financiran s strani EU in Transnacionalnega programa Podonavje, je bila oblikovana s ciljem izboljšati dostop do informacij za migrante v osmih državah Podonavja. 'Priro'nik za pripravo informacijske platforme za migrante', s podnaslovom 'Kaj smo se naučili pri oblikovanju transnacionalnega ve?jezi?nega informacijskega orodja Kompas Podonavja/ Danube Compass', naslavlja proces nastajanja te platforme in ponuja koristne nasvete in predloge za pripravo sorodnih platform, bodisi na nacionalni ali lokalni ravni. Namenjen je institucijam in organizacijam, ki se ukvarjajo z integracijo migrantov in ki želijo pripraviti kataloge informacij namenjenih migrantom za lažje vklju?evanje v družbe naselivke.

I Know How to Set Goals, So Why Don't I Achieve Them? Jun 15 2021 I Know How to Set Goals, So Why Don't I Achieve Them? Millions of people set goals every year, only to fall short of achieving them (if they ever begin at all) over and over again. There are scores of audio programs on how to set goals, but few if any that deal with it to do when your best laid plans never materialize. In this cutting-edge program by Dr. Nick Hall, **I Know How to Set Goals, So Why Don't I Achieve Them?**, you'll learn the latest in neuroscience and psychology on how to make sure you reach every goal you set. In order to achieve goals, you must begin by removing, or at least minimizing, potential impediments to success. There are many, however, the most crippling are those that reside within your mind. Granted, changes in the economy, the actions of others, and unexpected obstacles can derail even the most worthy plans despite the best intentions. But they pale in comparison to the impact your thoughts have. That's because you don't respond to reality. You respond to a mental image of reality. It is the image that gives rise to emotion, which in turn will motivate you to approach or avoid. We tend to approach those things associated with positive emotions such as love and joy, and avoid those linked with negative emotions such as disgust and sadness. In addition, the image is driving the endocrine and autonomic nervous system pathways, which provide the biological foundation of the entire stress response. This is important to understand because it enables you to always have control over the impact events have upon your mental and physical well-being. You can't always control external events. But after listening to this program, you'll learn that you can always exert a measure of control over your perception of those events. You'll also learn: How to create new mental images that remove the blocks in the goal setting process. The role that beliefs play in supporting or sabotaging you in achieving your goals. How to change unhealthy belief systems to empowering belief systems. Discovering what you truly value in life, and setting goals that are in alignment with those values. How to divide your goals into more achievable "sub-goals". The role emotions play in goal achievement.
