Survival is a recurring theme of 50 Cent’s lyrics, and his life. That’s why, with obesity rates soaring and fitness levels declining, he wants to give everyone an all-access pass to his premium plan for lifelong fitness. In Formula 50, the mega-successful entertainer and entrepreneur unleashes the power of metabolic resistance training (MRT), the key ingredient that has helped him achieve the famously buff physique that makes his music videos sizzle. Through MRT, 50 Cent’s fitness plan breaks down the barriers between traditional weight training and cardio workouts, accelerating fat loss while building muscle and improving overall fitness. Designed for a six-week rollout for total mind-body transformation, the Formula 50 regimen builds willpower while it builds physical power. In addition to motivation, nutrition is another key element; readers will discover the unique dietary combinations that fuel 50 Cent’s workouts. Coauthored with Jeff O’Connell, health journalist and editor-in-chief at Bodybuilding.com (the world’s largest fitness website), the book delivers a payoff that goes beyond six-pack abs and flab-free pecs: This is a fitness plan that boosts energy, endurance, flexibility, and mobility. You Are Not a Fit Person Feb 25 2020 You Are Not A Fit Person is a statement of the difference between yourself and fit people. We all know fit people, they get up early to exercise, they are the first to leave the party and they look down their noses at our fast food choices. These people are nothing like us, yet we have lined up to get fitness advice from them. We don't need their routines to lose weight and get fit, you need your own. Routines that work with your lifestyle, routines that help you to finally allow exercise and better eating into your life. You don't need another 'new and fat busting' set of exercises for the gym, you need to find ways to embrace exercise. You don't need another 'Chick Pea and Tofu Omelette' recipe, you need to find ways to eat your steak and still be fit. That is what You Are Not A Fit Person is about. It is about finding solutions that will work for you in your lifestyle. It is a fitness book for us, the 'diet resistant'.

"A practical crash course in how to reinvent yourself."—Kevin Kelly, Wired Is it possible to reach your genetic potential in 6 months? Sleep 2 hours per day and perform better than on 8 hours? Lose more fat than a marathoner by bingeing? Indeed, and much more. The 4-Hour Body is the result of an obsessive quest, spanning more than a decade, to hack the human body using data science. It contains the collective wisdom of hundreds of elite athletes, dozens of MDs, and thousands of hours of jaw-dropping personal experimentation. It's the wisdom Tim used to gain 34 pounds of muscle in 28 days, without steroids, and in four hours of total gym time. From the gym to the bedroom, it's all here, and it all works. You will learn (in less than 30 minutes each): • How to lose those last 5-10 pounds (or 100+ pounds) with odd combinations of food and safe chemical cocktails • How to prevent fat gain while bingeing over the weekend or the holidays • How to sleep 2 hours per day and feel fully rested • How to produce 15-minute female orgasms • How to triple testosterone and double sperm count • How to go from running 5 kilometers to 50 kilometers in 12 weeks • How to reverse "permanent" injuries • How to pay for a beach vacation with one hospital visit And that's just the tip of the iceberg.
